Portland, OR 97214

Dear EPA Region 10,

The Portland Harbor Superfund site needs an aggressive cleanup that protects people and wildlife for the long-term. In response to your Draft Plan, I feel you need to consider the following:

1. The overall goal of the Superfund cleanup should be to lift the fish advisory related to toxic pollutants found in the Portland Harbor area of the Willamette River.
2. At least 1000 acres of the most highly contaminated sediment should be dredged and removed to achieve this goal.
3. The Draft Plan contains far too much Monitored Natural Recovery.
4. More to say? Add it here: Please - Do this job right. Please - Don't let cost influence this plan!
