NOTE: BRANFORD VIBRATOR'S RECORDS DO NOT INDICATE SHIPMENTS OF ANY MATERIALS TO THE SOLVENTS RECOVERY OF NEW ENGLAND SITE. THIS RESPONSE INDICATES ONLY THE REMOVAL OF MATERIALS FROM THE BRANFORD VIBRATOR FACILITY BY DWIGHT JUDSON COMPANY, WHICH WAS ASSOCIATED WITH THE SOLVENTS RECOVERY OF NEW ENGLAND SITE BY EPA IN EARLIER CORRESPONDENCE. NO RECORDS WERE LOCATED FOR SIMILAR TRANSACTIONS PRIOR TO 1980; MUCH LOWER USAGE OF SOLVENTS IS RECALLED FOR THAT PERIOD.

Notes:

- 1) The transaction date refers to the date the waste was delivered to SRSNE. This date may differ from the date the waste left the generator's facility, (particularly if the transaction was brokered by another party), and therefore may not match exactly with your records. EPA expects you to make your best efforts to correlate your records with EPA's documents. This is to prevent double-counting of shipments in EPA's volumetric ranking.
-) All gallon volumes are waste-in transactions to SRSNE.
-) Please state waste type by chemical name. If the chemical name is not known, please state the trade name and the manufacturer's name.
-) e.g., XYZ Chemical Company - generator; ABC Waste Trucking - transporter; EFG Waste Disposal Service - broker.
