re: Draft Cleanup Plan for Portland, Oregon

Under this plan the vast majority of pollutants will remain in the river, and some species of the river's fish will remain too toxic to eat - FOREVER.The Portland Harbor corporations responsible for this mess profited while dumping toxic pollution into the Willamette. It sure looks to me like the EPA is once again making a sweetheart deal with yet more corporate polluters. It's time the EPA did its job without being harried into it. Does the EPA have a conscience anymore or does the EPA now work for corporate fascists?
