To Whom It Will Concern and
that's all of us that live near the Willamette
River:

I was planning to come to the Portland Building on
SW Fifth today but I don't have enough money
to spend for bus fare. money needs to go for food.
I am 82 years old and care deeply for the
Willamette River. I lived here almost my whole
life and don't like to think of the toxins, ~~poisins~~ poisons
under the surface of the water and the fish that
people might be eating that come from the polluted
river.

Hell, yes, the companys that threw the ~~poisins~~ poisons in
the river should pay 100%. When you go into the
woods you take out your mess; when your dog poops you
clean it up and put it in your own container. Some people,
companys won't take their responsibility for causing
the mess. They, company or people, need to
Ondredging, 100%. No half hearted dredging — no
a few mile cleanup but all the way superfund
cleanup.

If you need to spend alot, spend alot — not do it in a
half hearted way. Charge, fine the companys big — don't
let them get away with it.

I really want to be proud of your river. Make Oregon
proud the way you will do it. Thank you sincerely
for reading this!!

Gratefully
