A big, expensive river cleanup may sound like a good idea. But it isn't.

Your job is to cleanup for the river, I get that. But I hope that the EPA regulators will also understand that we can't have a pristine river that gets that way only because we bankrupted our small businesses to pay for it.

Thank you for allowing me to weigh in on this important process. Please do the right thing and make sure the cleanup is good for our environment and our economy.

Sincerely,
