Subject: Implications of Updated Toxicity Values for Benzo(a)Pyrene
Attachments: LDW cPAH tech memo_toEPA_06-14-19.pdf

Alison, Denice, Glen –

Please find attached a memorandum prepared by LDWG (this is revised from an earlier version, per EPA comments) on the analysis of changes to the ROD that might result from the BaP toxicity profile update.

Alison, Denice, I am looking forward to our call this Wednesday, so hopefully you have a few minutes to scan it. Otherwise, I'll walk you through it.

Glen, I'd be happy to go over the memo with you, too. Let me know if that would be helpful—before OR after you read it over.
