Clean Up Portland Harbor

Letter

Dr. Ms. McCarthy, The proposed cleanup of the Portland Harbor is a big win for industry and a bad deal for the public. EPA's cleanup proposal tackles just 8% of a site area that is 100% toxic. A more aggressive plan is needed to prevent even more harm to human health and the environment. On behalf of all people who rely on the river for food, recreation, employment and culture, I urge the EPA to implement a plan that: Moves quickly and sustainably reduces contaminants causing harm to Willamette and Columbia River resources. Includes ongoing monitoring and cleanup upriver and downriver from the site. Contributes to healthy fish that are safe to eat for all people. Holds polluters accountable for creating a safer Portland

	Harbor. These elements get us closer to the plan our communities deserve. And I deserve a clean, safe Portland Harbor. *Submitted during the comment period between June 9, 2016 to August 8, 2016 regarding the EPA's Portland Harbor Feasibility Study and Proposed Plan.

Message (500 Character Limit)	Dear EPA - Your Draft Plan simply does not do enough for the Willamette, or for local people. The dredging area should be much larger, with the ultimate goal of lifting the Fish Consumption Advisory for resident fish. Keep in mind that Portland build the Big Pipe for $1.4 billion. The ten mile stretch of the Willamette deserves more than the approach you are now taking. Please be bold, and do the right thing. Don't cave to the pressure from politicians and others. We need a much cleaner river!!
