Clean Up Portland Harbor

Letter	Dr. Ms. McCarthy, The proposed cleanup of the Portland Harbor is a big win for industry and a bad deal for the public. EPA's cleanup proposal tackles just 8% of a site area that is 100% toxic. A more aggressive plan is needed to prevent even more harm to human health and the environment. On behalf of all people who rely on the river for food, recreation, employment and culture, I urge the EPA to implement a plan that: Moves quickly and sustainably reduces contaminants causing harm to Willamette and Columbia River resources. Includes ongoing monitoring and cleanup upriver and downriver from the site. Contributes to healthy fish that are safe to eat for all people. Holds polluters accountable for creating a safer Portland Harbor. These elements get us closer to the plan our communities deserve. And I deserve a clean, safe Portland Harbor. *Submitted during the comment period between June 9, 2016 to August 8, 2016 regarding the EPA's Portland Harbor Feasibility Study and Proposed Plan.

Message (500 Character Limit)	On behalf of all people who rely on the river for food, recreation, employment and culture, I urge the EPA cleanup of the Portland Harbor take into account the livelihoods of communities which live between the Willamette and the Columbia rivers. As the EPA takes steps to plan the cleanup, many communities, in particular, communities of color, immigrant, and refugees, will face challenges to life, both in work and in recreation if the Harbor doesn't have community investment.
