

-- Public Notice --

U.S. Environmental Protection Agency

Chem-Fab Superfund Site

Doylestown, Bucks County, PA

--Proposed Remedial Action Plan Released--

The United States Environmental Protection Agency (EPA) has released its Proposed Remedial Action Plan (Proposed Plan) for the Chem-Fab Superfund Site located in Doylestown, Pennsylvania. EPA is issuing this Proposed Plan to present the Preferred Alternative for an interim remedial action to address groundwater contamination at a portion of the Site.

This Proposed Plan for interim action addresses the Area of Highest Groundwater Contamination, referred to as Operable Unit-2 (OU-2), at the Site.

The preferred alternative proposed for the Site includes installing a groundwater extraction and treatment system, construction of a groundwater treatment building, discharging treated groundwater to Cooks Run and implementing long term Operation & Maintenance of the treatment system to ensure continued protection of human health and the environment.

To review the full Proposed Plan and associated documentation, the documents can be viewed on EPA's website at: <http://go.usa.gov/xK4CB>

You're Invited!

EPA will hold a public meeting to discuss the Proposed Plan

Tuesday, October 18, 2016

6:30 p.m. - 8:30 p.m.

Doylestown Borough Hall

57 West Court Street

Doylestown, PA 18901
