### **U.S. Environmental Protection Agency**

*BoRit Asbestos Superfund Site, Ambler, PA*

#### **EPA Seeks Public Comments on the BoRit Asbestos Superfund Site Proposed Remedial Action Plan**

The U.S. Environmental Protection Agency (EPA) has developed a Proposed Remedial Action Plan (Proposed Plan), which outlines five options for addressing asbestos contamination at the Site. EPA's Preferred Alternative is identified in the Proposed Plan as Alternative WSS2: Capping. In proposing this option, EPA incorporates the work that has already been completed at the Site which includes covering the asbestos-containing wastes, soils, and reservoir sediments with geotextile, a minimum of 2 feet of clean material and 6 inches of topsoil and vegetation. In addition to capping, EPA's preferred alternative also requires post-construction sampling, routine inspections, long term operations and maintenance, and land-use controls.

To review the Proposed Plan document in full,  
Online at: <https://semspub.epa.gov/src/document/03/2238056>  
In person: Wissahickon Valley Library, Ambler Branch  
209 Race Street, Ambler, PA 19002, Phone: (215) 646-1072  
Or U.S. EPA, Region III  
1650 Arch St., Philadelphia, PA 19103  
Phone: (215) 814-3157. Please call for an appointment.  
The Administrative Record for the Site can be found at:
