Prepare and Submit the Final TAG Application (Step 7)

Submitting your TAG application (continued)

Once you have finished filling out all of the forms, all the completed forms should appear in either the "Mandatory Completed Documents for Submission." When you have finished attaching a copy of the letter from the state approving your group for incorporation and a copy of your group's bylaws, these two documents should appear in the "Optional Completed Documents for Submission" box.

Now click the "Save" button that appears at the top of the Web page. **(NOTE: You must submit a complete application; you may not complete and submit only parts of it.)** Please use the following format when saving your file: "(your organization name) - FYXX - (grant category) - 1st Submission" (for example, the files for the Woodtown Landfill Coalition would be named "Woodtown Landfill Coalition - FY07 - Environment - 1st Submission").

It is wise to save the document a second time, using a different name, such as "(your organization name) - FYXX - (grant category) - Back-up Submission" (for example, "Woodtown Landfill Coalition - FY07 - Environment - Back-up Submission"). This will make it easier to submit an amended package later if necessary. If it becomes necessary to submit an amended package at a later date, you can use your Back-up Submission file and rename it "(your organization name) - FYXX - Environment - 2nd Submission" when you submit the amended application.

Once your application package has been completed and saved, close all other software programs on your computer before attempting to submit the application.

Your AOR then may submit the application package by clicking the "Submit" button that appears at the top of the page. (REMEMBER: Your AOR must have completed the Grants.gov registration process before he or she can submit an application.) The AOR will then be asked to verify the agency and funding opportunity number for which the application package is being submitted. If problems are encountered during the submission process, the AOR should reboot his/her computer before trying to submit the application package again. (It may be necessary to turn off the computer (not just restart it) before attempting to submit the package again.) If the AOR continues to experience submission problems, he/she may contact Grants.gov for assistance by phone at 1-800-518-4726 or email at support@grants.gov.

Within 24 to 48 hours after Grants.gov has received your submission, Grants.gov will send you two email messages. The first will confirm receipt of your application by the Grants.gov system, and the second will indicate that the application has either been successfully validated by the system prior to transmission to the grantor agency or has been rejected due to errors. You also can check the status of your application anytime after submission, by logging into Grants.gov using the black "Applicants" link at the top of any page, and clicking on the "Check Application Status" link.

When your application is successfully validated and retrieved by EPA from the Grants.gov system, EPA will send you an email. How quickly you receive EPA's email will depend on when the Agency retrieves your application from the Grants.gov system for processing; it may take several days or weeks from the date of submission. Note that Grants.gov does not participate in making any award decisions. **If you have not received a confirmation of receipt from EPA within 30 days of the application deadline, please contact the Agency Contact provided by your Regional TAG Coordinator or listed in the grant application package on the Grants.gov Web site. Failure to do so may result in your application not being reviewed.**
