

Lower Neponset River Superfund Site

Engineering Evaluation / Cost Analysis Presentation

JULY 22, 2025 | 6 P.M. TO 8 P.M.

**THE PRYDE COMMUNITY CENTER
59 Harvard Ave, Hyde Park, MA 02136**

An independent technical advising team provided by EPA's Technical Assistance Services for Communities (TASC) program will present their review of EPA's Engineering Evaluation / Cost Analysis (EE/CA) for the Lower Neponset Superfund site. The EE/CA presents EPA's preferred plan for cleaning up part of the site. EPA is asking the public to submit comments about the plan. Please come join your fellow neighbors to learn about the EE/CA and hear about how your voice matters, strengthens and has an impact in EPA's decision-making process.

For more information on the site and cleanup activities, please visit: epa.gov/neponsetriver

For general Community Advisory Group information, please visit: epa.gov/superfund/superfund-community-advisory-groups
