**Re: Submittal of 401 Water Quality Certification - McCoy Field
Wetland Remediation Project
BETA Project No.: 2685**

To Whom It May Concern:

On behalf of the City of New Bedford, BETA Group, Inc. (BETA) is submitting the enclosed "401 Water Quality Certification for Fill and Excavation" permit application for the proposed remediation of the wetland portion of McCoy Field (the Site). This cover letter shall serve to provide you with an overview description of the proposed project. Please refer to the enclosed Department of Environmental Protection (DEP) Form BRP WW 10 and attachments for specific project details and all required submittals.

Background

As part of ongoing site assessment and remediation activities at the Site, BETA has compiled results of sediment sampling in the wetlands to the west of the new Keith Middle School construction project. Results compiled to date indicate an average exposure point concentration of polychlorinated biphenyls (PCBs) in this wetland area of approximately 1.3 parts per million (ppm).

ESS Group, Inc. has performed an ecological risk assessment of the wetlands area and concluded that no further action is required. Other contaminants of concern, including heavy metals and polynuclear aromatic hydrocarbons, were detected at concentrations that did not pose an unacceptable level of risk to the environment.

In recent consultation with U.S. Environmental Protection Agency (EPA) and the Massachusetts Department of Environmental Protection (DEP) representatives, it was determined that cleanup of sediments with residual concentrations of PCBs greater than 1 ppm is the appropriate remedy. Please refer to the attached Executive Summary from the ESS Environmental Risk Characterization Report dated March 2005 (included in Attachment A).

Proposed Remedial Approach

The project proposes to implement the removal of up to six inches of PCB-impacted sediments at selected locations within the area illustrated on Figure 2 (included as part of Attachment A-Risk Based Cleanup Request).

The following activities are proposed:

- Clearing of vegetation and physical removal of leaf litter, surface vegetation, and surface sediment/soil by the contractor;
- Direction of Site activities by BETA's on-site representative;
- Live loading, transportation and disposal of sediment to appropriately licensed disposal facilities; and
- Restoration of disturbed areas, including replacement of the removed sediment/soil with clean sandy soil and seeding with wetlands mix, similar to that used for the current slope stabilization project at McCoy Field in accordance with the enclosed Wetland Restoration and Planting Plan prepared by Nover-Armstrong Associates.

Regulatory Considerations

No Site work will be performed prior to approval by all appropriate regulatory authorities.

In order to minimize disturbance to the wetland, BETA's goal is to have regulatory clearance to perform the work by early September, during the anticipated driest portion of the year. In anticipation of meeting this schedule, we are hopeful that the DEP will be able to review this submittal and make a determination by the end of July.

Attachments

BETA has included a full copy of the EPA Risk Based Cleanup Request report (Attachment A to this submittal). This report contains the following information, requested as part of this filing:

- Site Locus Map and Site Plan (Figures 1 and 2)
- Copy of the Notice of Intent submitted to the New Bedford Conservation Commission (Attachment B).
- Alternatives Analysis Memorandum (Appendix G to Attachment B)
- Copy of Environmental Notification Form (Attachment F)

In addition to the Risk Based Cleanup Request, BETA has also included a copy of the legal notice request, submitted to the New Bedford Standard Times newspaper on June 17, 2005 (Attachment B to this submittal).

If you have any questions or concerns regarding this request, please call me at 781-255-1982.

Sincerely,
BETA GROUP, INC.

3. a. Describe project purpose:

This project is a wetlands restoration project. It consists of a cleanup of sediments in the wetland area with residual contamination of polychlorinated biphenyls (PCBs) greater than one part per million (ppm). The proposed scope of work includes the removal of up to six inches of PCB-impacted sediments at designated locations within the wetland area, followed with restoration of the impacted wetlands. Note: Anticipated restoration areas within the wetland total approximately 38,000 square feet. In the Notice of Intent, submitted to the New Bedford Conservation Commission on May 27, 2005, an initial estimate of 60,000 square feet of disturbance was indicated. This was a conservative estimate, which also factored incidental disturbance which may occur as a result of gaining access to target cleanup areas. Targeted cleanup areas are not anticipated to exceed 38,000 square feet. See Notice of Intent (included in Attachment A) for more detailed information.

- b. Is the project

☐ water-dependent

☒ non water-dependent

B. Project Information (cont.)

4. a. provide a brief description of the proposed project (See Application Instructions and include a copy of the Notice of intent, if any.):

Specific activities include (1) clearing of vegetation and physical removal of leaf litter, surface vegetation, and surface sediment/soil; (2) live loading, transportation, and disposal of sediment to an appropriately licensed receiving facility, and; (3) complete restoration of all disturbed areas, including replacement of the removed sediment/soil with clean soil and seeding with wetlands seed mix. See Notice of Intent (included in Attachment A) for more detailed information.

b. Notice of Intent File number (if any): SE 49-543

5. Identify the loss in square feet of each type of resource area (see Application Instructions for additional information.):

a. Bordering vegetated wetland:	(38,000 sf excavation and restoration - no net loss)
b. Isolated vegetated wetland:	0
	square feet
c. Land under water:	0
	square feet
d. Total cumulative loss of a. + b. + c.:	square feet
	0
e. Salt marsh:	square feet

6. a. Will the proposed project occur in any wetlands or waters designated as "Outstanding Resource Waters"?

☐ Yes ☒ No

If yes has public notice been published in the Environmental Monitor?

☐ Yes ☐ No

Date of Publication

- b. Is this project a subdivision or any part of a subdivision?

☐ Yes ☒ No

- c. Is the project categorically subject to MEPA?

☒ Yes ☐ No

If yes, has final action been taken?

☐ Yes ☒ No

If yes, please include copy of MEPA certificate.

B. Project information (cont.)

7. Alternatives Analysis:

As related to the project purpose, attach a detailed description of alternatives to the proposed project that were considered and why none are available that avoid adverse impacts to wetlands and waters.

If no alternatives are available, describe how the activity will minimize or mitigate the adverse impacts to wetlands and waters.

See application instructions for information required. Attach required documentation.

Alternatives Analysis included as an attachment to
Appendix A.

C. Additional Information

1. Is any of your proposed work exempt from the Massachusetts Wetlands Protection Act or taking place in a federal non-state wetland?

☐ Yes ☒ No

If yes, see Application Instructions for additional information needed.

2. Public notice to a newspaper of general circulation within the area of the proposed activity must be published within 10 days of the date of this application. Is proof of public notice submitted?

☐ Yes ☒ No

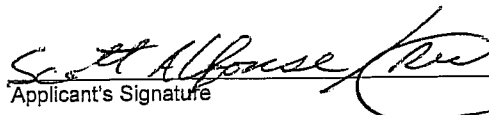

(See Application Instructions for additional information)

Legal Notice request to New Bedford Standard Times
included as Appendix B.

D. Certification

Application is hereby made for water quality certification.

"I certify that I am familiar with the work proposed and that to the best of my knowledge and belief the information contained in this application is true, complete, and accurate"

CITY OF NEW BEDFORD MASSACHUSETTS REQUEST FOR QUOTES #708

The City of New Bedford, through its Department of Public Facilities, is soliciting quotations for a

Used Tractor

Specifications: 1999 or newer, 460 horsepower engine, 13-speed standard transmission, camel back suspension engine break, air conditioning, 14,300 pound axle, 44,000 rear axels, 2-line wet system, 24.5 tires, under 230,000 miles

Sealed Quotations will be received by the Purchasing Department, in conjunction with the Department of Public Facilities, in the office of the Purchasing Agent, Room 208, City Hall, 133 William Street, New Bedford, Massachusetts 02740, during business hours, until the date and time of the bid opening.

QUOTATIONS RECEIVED AND OPENED:

Tuesday, July 5, 2005 at 3:00 p.m. Prevailing Time The Request for Quotation Form and other Contract Documents, may be obtained and examined at:

Purchasing Department
City Hall, Room 208
133 William St.
New Bedford, MA 02740
on or after June 21, 2005
Attention is called to the fact that supplies furnished as part of this Contract are exempt from the Sales and Use Tax. All bids submitted should take this factor into consideration, and be calculated accordingly. This project is funded through the Department of Public Facilities.

A contract will be awarded within thirty (30) days after the bid opening. The time for award may be extended by mutual agreement between the City and the apparent lowest responsive and responsible bidder. Interested Vendors must furnish a Non-Collusion Form and Statement of Taxes, with their Quotation.

PUBLIC NOTICE OF ENVIRONMENTAL REVIEW

PROJECT: McCoy Field -
New Keith Middle
Schools Wetlands
Remediation

LOCATION:

225 Hathaway Boulevard,
New Bedford, MA 02740

PROPOSER:

City of New Bedford
133 William Street
New Bedford, MA 02740

The undersigned is submitting a Water Quality Certification ("WQC") to the Department of Environmental Protection (DEP) Southeast Regional Office on or before June 20, 2005.

This project is a wetlands restoration project. It consists of a cleanup of sediments in the wetland area with residual contamination of polychlorinated biphenyls (PCBs) greater than one part per million (ppm). The proposed scope of work includes the removal of up to six inches of PCB-impacted sediments at designated locations within the wetland area, followed with restoration of the impacted wetlands. Submittal will initiate review of the above project pursuant to 314 CMR 9.00. Copies of the WQC may be obtained from: City of New Bedford, 133 William Street, New Bedford, MA 02740 Scott Alfonse, Director, Department of Environmental Stewardship, 508-979-1487

Copies of the WQC are also being sent to the Conservation Commission and Planning Board of New Bedford, where they may be inspected. Upon publication of this notice, the Department will receive public comments on the project for 21 days. All persons wishing to comment on the project, or to be notified of a site visit or consultation session, should contact the DEP, Southeast Regional Office, 20 Riverside Drive, Lakeville, MA 02347, 508-946-2700, referencing the above project. Any ten persons of the Commonwealth, any aggrieved person, or any governmental body or private organization with a mandate to protect the environment that has submitted written comments may also appeal the Department's Certification. Failure to submit comments before the end of the public comment period
