**Re: Housatonic River  
Connecticut Department of Public Health Advisory on Fish Consumption**

Dear Sir/Madam:

As you may know, the Connecticut Department of Public Health (CT DPH) has issued an advisory relating to the consumption of fish from the Housatonic River. Under a Consent Decree executed by the General Electric Company (GE), the U.S. Environmental Protection Agency (EPA), and the State of Connecticut and a Revised Final Permit issued by EPA to GE under the Resource Conservation and Recovery Act covering environmental protection along the Housatonic River, GE has agreed to help publicize that advisory to individuals who may use the river for fishing. Accordingly, GE is providing you with copies of a pamphlet prepared by CT DPH entitled "If I Catch It, Can I Eat It?", so that you can provide them to people obtaining fishing licenses. This pamphlet describes the fish consumption advisory for the Housatonic River in Connecticut and provides general state-wide advice for eating recreationally caught fish.

Please distribute the enclosed pamphlet to all persons obtaining a fishing license. Both English and Spanish versions are enclosed for distribution.

If you find that you need additional copies of the pamphlet, please contact me at (413) 553-6610 or kevin.mooney@ge.com, and I will arrange for more pamphlets to be sent to you. Thank you for your assistance with this important public outreach effort.

Very truly yours,

Kevin G. Mooney  
Senior Project Manager

Enclosures: 100 copies of pamphlet in English  
50 copies of pamphlet in Spanish

**Re: Housatonic River  
Connecticut Department of Public Health Advisory on Fish Consumption**

Dear Sir/Madam:

As you may know, the Connecticut Department of Public Health (CT DPH) has issued an advisory relating to the consumption of fish from the Housatonic River. Under a Consent Decree executed by the General Electric Company (GE), the U.S. Environmental Protection Agency (EPA), and the State of Connecticut and a Revised Final Permit issued by EPA to GE under the Resource Conservation and Recovery Act covering environmental protection along the Housatonic River, GE has agreed to help publicize that advisory to individuals who may use the river for fishing. Accordingly, GE is providing you with copies of a pamphlet prepared by CT DPH entitled "If I Catch It, Can I Eat It?", so that you can provide them to people obtaining fishing licenses. This pamphlet describes the fish consumption advisory for the Housatonic River in Connecticut and provides general state-wide advice for eating recreationally caught fish.

Please distribute the enclosed pamphlet to all persons obtaining a fishing license. Both English and Spanish versions are enclosed for distribution.

If you find that you need additional copies of the pamphlet, please contact me at (413) 553-6610 or kevin.mooney@ge.com, and I will arrange for more pamphlets to be sent to you. Thank you for your assistance with this important public outreach effort.

Very truly yours,

Kevin G. Mooney  
Senior Project Manager

Enclosures: 100 copies of pamphlet in English  
50 copies of pamphlet in Spanish

**Re: Housatonic River  
Connecticut Department of Public Health Advisory on Fish Consumption**

Dear Sir/Madam:

As you may know, the Connecticut Department of Public Health (CT DPH) has issued an advisory relating to the consumption of fish from the Housatonic River. Under a Consent Decree executed by the General Electric Company (GE), the U.S. Environmental Protection Agency (EPA), and the State of Connecticut and a Revised Final Permit issued by EPA to GE under the Resource Conservation and Recovery Act covering environmental protection along the Housatonic River, GE has agreed to help publicize that advisory to individuals who may use the river for fishing. Accordingly, GE is providing you with copies of a pamphlet prepared by CT DPH entitled "If I Catch It, Can I Eat It?", so that you can provide them to people obtaining fishing licenses. This pamphlet describes the fish consumption advisory for the Housatonic River in Connecticut and provides general state-wide advice for eating recreationally caught fish.

Please distribute the enclosed pamphlet to all persons obtaining a fishing license. Both English and Spanish versions are enclosed for distribution.

If you find that you need additional copies of the pamphlet, please contact me at (413) 553-6610 or kevin.mooney@ge.com, and I will arrange for more pamphlets to be sent to you. Thank you for your assistance with this important public outreach effort.

Very truly yours,

Kevin G. Mooney  
Senior Project Manager

Enclosures: 100 copies of pamphlet in English  
50 copies of pamphlet in Spanish

cc: Dean Tagliaferro, EPA (e-mail copy of letter w/o enclosures)  
Josh Fontaine, EPA (e-mail copy of letter w/o enclosures)
