INVESTIGATIVE
REPORTFROM: JUNE EDWARDSDATE: JUNE 11, 1980SUBJECT: Cumbe Fill Corp. (South) Chester Twp. Site

I notified Chester office of inspection by phone from Mount Olive landfill site. I met with owner at site, other than pointing out deficiencies to compactor operator.

2.5.13 I noted AREA A on sketch consisting of refuse protruding through cover of entire area. I noted odor and presence of flies on refuse.

2.5.13 I noted AREA B on sketch consisting of refuse protruding through cover.

Observation:

I noted some debris amongst stumps consisting of CANS AND WIRE.

: JOHN EDWARDSDATE: AUGUST 9, 1979SUBJECT: Circle Fill Corp. - Chester Twp. Site

A joint inspection was conducted with Ralph Villani, Mr. Kinsley, Washington Twp.

Health Officer; Miss POLLARA, Sanitarian, Front Street, Chester Twp.
Health Officer.2.5.13 I noted area approx. 40' x 100' consisting of refuse protruding
through cover. See attached sketch AREA A.2.5.13 I noted area approx. 40' x 100' consisting of refuse
protruding through cover. See sketch AREA B.Observations: AREA C consisted of a pond of murky
water near piping of leachate collection system.I spoke with adjacent resident to landfill concerning
odors. There appears to be no odor problem at
present time. Resident states last week odors were
offensive. I left S.W.A. number with resident to
call if odors recur.John Edwards

TO: File

INVESTIGATIVE
REPORTFROM: Tom EdwardsDATE: August 9, 1979SUBJECT: Combe Fill Corp. - Chester Twp. Site 1407A

There is no known age of the site. I do not
recommend a N.C.P.

I do recommend, however, that reports
regarding pollution of Trout Brook etc. be
reviewed and action taken if necessary
in connection with landfills' rule in that
relation.
