Edgar Kaup, Project Manager Hazardous Site Mitigation Adminsitration New Jersey Department of Environmental Protection 428 East State Street Trenton, New Jersey 08625

Dear Mr. Kaup:

Enclosed please find a copy of Protocol for bioassessment of hazardous Waste sites. Make note that these protocols will be customized to suit the Combe Fill South Site. I would appreciate if you would review this information and be available for a sampling expedition on April 30. I think it would be helpful to invite Dave Peifer and anyone else who you feel might be interested.

Please call me to verify this date as soon as possible.

Sincerely yours,

Christine Schulz, Project Manager New Jersey Remedial Action Branch
