Jorge Berkowitz, Ph.D, Administrator  
Hazardous Site Mitigation Administration  
New Jersey Department of  
Environmental Protection  
CN 028  
Trenton, New Jersey 08625

Dear Dr. Berkowitz:

This is in response to the May 2nd letter from Len Romino to John Csapor requesting EPA's approval of a change order involving the Superfund grant for the Combe Fill South site in Morris County, New Jersey.

We have reviewed the proposed modification and concur that additional hydrogeological field work and associated laboratory services are necessary to complete the remedial investigation and feasibility study for the landfill site. Further, funds for the additional activities are included in our Superfund Comprehensive Accomplishments Plan for FY 85.

At this time, we are providing conceptual approval of your change order request. Please note, however, that a more detailed review of the individual tasks and their related costs will be undertaken when the formal grant amendment request is available.

If you have any questions or would to discuss funding for the Combe Fill South site, do not hesitate to contact me.

Sincerely yours,

Grant Application  
6/11/85

John S. Frisco, Chief  
New Jersey Remedial Action Branch
