EPA Extends Public Comment Period on Plan to Clean Up Contamination at Superfund site in Gibbsboro, N.J.

Contact: Tayler Covington, (212) 637-3662 or covington.tayler@epa.gov

(New York, N.Y. – August 25, 2017) The U.S. Environmental Protection Agency has extended the public comment period for its proposal to clean up lead and arsenic contaminated soil and sediment at the United States Avenue Burn Superfund site in Gibbsboro, N.J. The original public comment period for the cleanup plan was scheduled to end August 28, 2017. **The EPA is extending the comment period to September 27, 2017** in response to a request from the public for more time.

The EPA held a public meeting on August 10, 2017 to explain the proposed cleanup plan and the other cleanup options that were considered.

Written comments may be mailed or emailed **by September 27, 2017** to:

Julie Nace, Remedial Project Manager
