The U.S. Environmental Protection Agency (EPA) in region 2 has received a letter of intent to apply for a Technical Assistance Grant at the Hudson River PCB's Superfund site from the Scenic Hudson, Inc. By law, only one grant for up to \$50,000 may be awarded to a citizens' group at any one site on the National Priorities list. Because of this limitation and in order to ensure that all community views are represented in recipient groups, EPA encourages all citizens' groups interested in applying for a Technical Assistance Grant at the Hudson River PCB's Superfund site to consolidate with residents and file a joint application. Groups wishing to file separate grant applications must, within the next 30 days, submit to EPA a letter of intent to file an application, clearly identifying the site for which you intend to submit an application.

All applications must be filed within 60 days of today's date. Groups that require additional time to draft a letter of intent or to file an application may submit a written request for an extension of this time to EPA for consideration.
