Jouncilson Jim Sheehan h give the Council a report	at requested that	the iree commission	
not just remove it. Also	he suggested that	the Council set a	
budget for this departse	nt. They are stil	11 allowing a blank	
check.			
Councilsan-at-Large Dudley	stated that he	discussed this issue	
with Dick Crowe and he apr	ees he should have	a budget so it will	
be up to us to do this. Th	e budgets talks wi	ll start shortly.

Councilson-st-Large Dudley who ABSTAINED,

P.03

000315000

WHEREAS, Protection Agency is the U.S. Environmental reassessing its 1984 decision not to drudge the Upper Hudson River to remove buried sediment containing PCB's and

WHEREAS, PCB landfill projects have twice before been proposed for agricultural properties in the Town of Fort Edward and have twice been stopped through legal action, political action and the vigilance of citizens of Fort Edward, Washington County and surrounding compunities, and

WHEREAS, the Town Beard of the Town of Fort Edward has steadfastly opposed Upper Hudson River remediation options that involve PCB dredge-and-landfill projects of any kind, and has asked other sunicipalities to join Fort Edward in opposition to such projects based on their negative regional impacts, and

a PCB dredge-and-landfill project would have WHEREAS, significant, long-term adverse environmental, economic and social consequences for all Upper Hudson River communities, especially affecting the agricultural industry, which depends ON CONSUMPT confidence in the purity of its products, confidence likely to be undermined by the presence of a hazardous waste landfill; and especially impairing the continuing efforts to make local computities attractive places to live, work and raise families local because a PCB landfill would destroy forever the pastoral quality of life that is our greatest asset, and

WHEREAS. & Mudson River dredping project would disrupt norsal

recreational use of the river and jeopardise future public and private investments in river-related aconities affecting the entire Upper Hudson region, and

WHEREAS, the more possibility of a PCB dredge-and-landfill project adversely affects land values throughout the Upper Hudson region and discourages private investment that might lead to the creation of new jobs, and

WHEREAS, representatives of Washington County and many local governments have taken an active role in EPA's public meetings and have repeatedly asked EPA to evaluate all of the adverse impacts of a PCB landfill on the resources and economy of the county, and

WHEREAS, EPA has conducted no such evaluation and has made no commitment to conduct such an evaluation before any decision to establish a PCB landfill is reached, and

WHEREAS. significant body 67 scientific evidence

P.04

000<u>34 948</u>9

demonstrates that conditions in the Hudson River are improving, with PCB levels declining in water, sediment and fish, such that the State of New York has reopened the catch-and-release fishery in the Upper River, and

WHEREAS, dredging contaminated sediments has been shown to be ineffective in improving environmental conditions elsewhere. and

WEREAS, there is no credible scientific evidence that dredging sediments from the bottom of the Hudson River would significantly accelerate the improvements already taking place as a result of ongoing remediation work and the river's natural recovery processes, and

SHEREAS, EPA itself determined in 1984 that a major dredging project "could be environmentally devastating to the river subsystem and cannot be considered to adequately protect the environment," (USEPA, Superfund Record of Decision at Page 8) and determined that "the actual reliability and effectiveness of current dredging technologies in this particular situation is subject to considerable uncertainty," (Decision at Page 11), and

WHEREAS, EPA recognized that the samy tons of material to be removed in a dredging project would require an "ispractically large containment facility" (Decision at Page B), and

WHEREAS, the (town or county board) finds there is no desonstrated environmental benefit to a dredge-and-landfill project on the Hudson River and many unmitigated long-term economic and social consequences negative environmental, affecting the entire region, and

Page 21 Compan Council Meeting June 19, 1997

WHEREAS, the (town or county board) finds that a dredge-andlandfill project would be a gross, unwarranted and unnecessary insult to the Hudson River itself and the communities of the Upper Hudson region, now, therefore,

BE IT RESOLVED, that the (town or county board), in concert with the Town Board of the Town of Fort Edward, hereby expresses its opposition to Hudson River remediation measures that involve dredge-and-landfill efforts of any kind and hereby transmits notice of such opposition, in writing, to U.S. Environmental Protection Agency Administrator Carol Browner; Region II USEPA Administrator Jeanne M. Fox; U.S. Sen. Daniel Patrick Moynihan Administrator Jeanne M. Fox; U.S. Sen. Daniel and U.S. Sen, Alphonse D'Amato; U.S. Rep. Gerald B. Solomon; New York Gov. George E. Pataki; Acting New York Environmental Conservation Commissioner John Cahill; New York State Sen. Ronald B. Stafford, and New York State Assemblyman Bobby D'Andrea and

New York State Assesblywoman Elizabern Little. J. De fante
