

**Hudson River PCBs Reassessment
Informational Meeting
on
Understanding the Decision-Making Process**

In December, 2000, the U.S. Environmental Protection Agency will issue a Proposed Plan on what should be done about the PCB-contaminated sediments of the Upper Hudson River.

In preparation, you are invited to attend an informational meeting on the process and policies EPA will use to reach this historic decision, how cleanup technologies and scenarios are evaluated, and the role of the public in the Superfund process. We will also be available to answer your questions on these issues. Two meetings are being held for the convenience of those living in different reaches of the Hudson Valley:

Monday, October 23, 2000- 7:00 p.m. at the Sheraton Civic Center Hotel, located at 40 Civic Center Plaza, Poughkeepsie, New York.

Wednesday, October 25, 200 - 7:00 p.m. at the Holiday Inn Express, located at 946 New Loudon Road, Latham, New York.

If you have any questions about these meetings or need more information, please contact Ann Rychlenski, Community Relations Coordinator, 212/637-3672, or e-mail at: rychlenski.an@epamail.epa.gov
