FAX TO: Ann Rychlenski, USEPA

FROM: Judy Schmidt-Dean, Chairman/Citizens Liaison Group/HR PCB Reassessment

DocID 80247

Dear Ann;

~~As Lillian has told you, we met last night. The results:~~

1. Attached letter requesting certain documents.
2. Meeting scheduled for 2/27 for the group (small core, i.e., myself, the 2 Co-Chairs, and a few others), to discuss the above info and plan the agenda and questionnaire for the open/public meeting.
3. We need a Press Release and Mailing issued to announce an open-to-all, public meeting to give all citizens a chance to speak and express their views to us. The particulars:
  - Town of Saratoga, Town Hall Basement (I have already reserved the room 30 Ferry St. with Jean Casey, Town Clerk, 695-3644) Schuylerville NY 12871
  - Tues. March 5, 1991 7:30-9:00 pm
  - We're asking that people come to discuss their concerns and issues about the Hudson River and EPA H.R. PCB Reassessment RI/FS. We will give a short synopsis of the Plan and have a short questionnaire for people to fill out that night. (If they can't attend, we'd like to find a way that they could just send us a questionnaire - leave supplies at local Town Halls?? Contact me?? Contact your?, etc.??)
  - Some examples of the issues we're thinking of - Is there really a PCB problem?? Is the use of the river adversely effected by the PCB's?? What and who are the users and potential users of the River?? Is studying old data really necessary?? As taxpayers and consumers, are any plans really cost-effective??
  - As I looked over the list of Media Contacts, I found one major area newspaper missing and 2 smaller local papers - could we add them??
