Dear Steering Committee Member:

On Tuesday, March 12, 1991, at 7:00 p.m., the U.S. Environmental Protection Agency will hold its first Steering Committee Meeting under the Community Interaction Program for EPA's Hudson River PCB Reassessment. The meeting location is as follows:

Howard Johnson's Motor Hotel
The Senate Room
Route 9W
Albany, NY

The Steering Committee is made up of the elected representatives (Chair, and two Co-Chairs) of each Liaison Group, as well as EPA and New York State Department of Environmental Conservation officials. We will be meeting in order to discuss the concerns, suggestions and questions offered to the Hudson River Oversight Committee by the four Liaison Groups. Therefore, it is suggested that you place those concerns/comments/suggestions in a cohesive written form for presentation to the Oversight Committee when we meet later on during this phase of the project.

The Steering Committee Meeting is a working meeting and not a public forum. While the meeting is open to the public, anyone who is not a member of the Steering Committee can act in the capacity of observer only. If you have any questions or require further information, please call me at 212/264-7214. Thank you for your interest and participation, and I look forward to our working together.

Sincerely,

A handwritten signature in cursive script, appearing to read "Ann Rychlenski", is written over the typed name.
