Dear Liaison Group Officer:

Enclosed, please find a copy of the most recently published update on EPA's Hudson River PCB Reassessment RI/FS. Since our mailing list is very large, you may receive this publication a few days before the rest of the Liaison Group membership and the general mailing list.

Though bulk mailing will be done over the course of this and next week, we felt it was important that those who have taken a most active role in the public participation aspect of this project receive the update as soon as possible. If you have any questions or need more information, please contact me at 212/637-3672. Thank you for your continued interest cooperation in this matter.

Sincerely,

Ann Rychlenski, Community Relations Coordinator
External Programs Division
