REGION 2  
290 BROADWAY  
NEW YORK, NY 10007-1866

DocID 80442

November 27, 1995

Dear Liaison Group Member:

This letter will serve to notify you that EPA has released the Phase 2 Report, Review Copy - Further Site Characterization and Analysis, Database Report to the public. This document is the first of the six volumes that comprise the entire Phase 2 Report.

Each Liaison Group officer (Chair and two Co-Chairs) has been provided with a copy of this report for circulation within their group, a total of three reports per group. Please contact your Chair or Co-Chairs to obtain their copy. In addition, copies of this document are available at the Information Repositories established for this site. When you look at the list of repositories, you may notice that there are a few missing from the last listing provided. We have discontinued some, but are relocating them in an adjacent area. When that has been accomplished, you will be notified of the new repository locations. Please note that some Information Repositories have extra copies of the report which are on circulation. Those have been marked with an asterisk (\*) for identification.

EPA is planning to hold a Joint Liaison Group meeting to discuss the Database Report some time in December. As soon as a date is settled upon I will contact you with that information. In the interim, please take every advantage to meet with your fellow Liaison Group members to study and review this document. If I can assist you in any way, you may contact me at 212/637-3672.

On the back of this letter is a list of your Liaison Group Officers and the Information Repositories where the Phase 2 Database Report is available. Thank you for your continued interest and participation in the Community Interaction Program for the Hudson River PCB Reassessment.

Sincerely,

A handwritten signature in dark ink, appearing to read "Ann Rychlenski", is written over a horizontal line.

Ann Rychlenski, Community Relations Coordinator  
External Programs Division
