

## PUBLIC NOTICE

### EPA Reviews Cleanup at the McAdoo Associates Superfund Site

The U.S. Environmental Protection Agency (EPA) is conducting a Five-Year Review of the McAdoo Associates Superfund Site located in Kline Township and McAdoo Borough, PA. The first Five-Year Review was completed in 1994. This fourth review will seek to confirm that the implemented cleanup, which included removing drums, contaminated soils and capping, is still protective of human health and the environment. The final document will be available August 2010.

#### What is a Five-Year Review?

EPA inspects sites every five years to ensure that cleanups remain fully protective of human health and the environment. These regular reviews, which are required by law when contaminants remain at a site, include

- Inspection of the site and cleanup technologies
- Review of monitoring data, operating data, and maintenance records
- Determination if any new regulatory requirements have been established since EPA's original cleanup decision was finalized.

#### To Review the Site:

The Results of the Five-Year Review are expected to be available in August 2010. There are three ways to review the site files for the McAdoo Associates Superfund Site.

- Visit the site's website at:  
<http://epa.gov/reg3hwmd/super/sites/PAD980712616/index.htm>
- Visit EPA's Public Reading Room at 1650 Arch Street, Philadelphia, Pennsylvania. Call 215-814-3157 for an appointment.
- Hazleton Area Public Library  
McAdoo Branch  
515 Kelayres Road  
McAdoo, PA 18237  
(570) 929-1120

#### To Comment on the Cleanup:

You may email or mail your comments or questions regarding the McAdoo Associates Superfund Site cleanup to:

EPA Region 3  
1650 Arch Street (3HS52)  
Philadelphia, PA 19103
