

NPL Site Narrative for Hranica Landfill

HRANICA LANDFILL

Buffalo Township, Pennsylvania

Conditions at listing (October 1981): The Hranica Landfill is a 10-acre drum disposal and landfill facility located in a farming community in Buffalo Township, Butler County, Pennsylvania. The privately-owned landfill stopped accepting industrial waste in 1974. The site contains about 7,700 55-gallon drums and larger vessels of waste composed of solvents, paint pigments, and metal sludges. A preliminary investigation of the site by the generator of most of the waste showed that local soil, surface water, and ground water may be contaminated with organic and inorganic compounds.

Status (July 1983): The State is attempting to negotiate with two parties potentially responsible for wastes at the site.

For more information about the hazardous substances identified in this narrative summary, including general information regarding the effects of exposure to these substances on human health, please see the Agency for Toxic Substances and Disease Registry (ATSDR) ToxFAQs. ATSDR ToxFAQs can be found on the Internet at [ATSDR - ToxFAQs](http://www.atsdr.cdc.gov/toxfaq/index.asp) (<http://www.atsdr.cdc.gov/toxfaq/index.asp>) or by telephone at 1-888-42-ATSDR or 1-888-422-8737.
