[FRL-4545-6]

National Oil and Hazardous Substances Contingency Plan; National Priorities List Update

AGENCY: Environmental Protection Agency.

ACTION: Notice of deletion of a site from the National Priorities List.

SUMMARY:

The Environmental Protection Agency (EPA) announces the deletion of the Metal Working Shop Superfund Site in Lake Ann, Michigan from the National Priorities List (NPL). The NPL is Appendix B of 40 CFR part 300 which is the National Oil and Hazardous Substances Contingency Plan (NCP), which EPA promulgated pursuant to Section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended. EPA and the State of Michigan have determined that all appropriate Fund-financed responses under CERCLA have been implemented and that no further cleanup by responsible parties is appropriate. Moreover, EPA and the State of Michigan have determined that no remedial action is necessary at the site. The response is protective of public health, welfare, and the environment.

EFFECTIVE DATE:

SUPPLEMENTARY INFORMATION:

The site to be deleted from the NPL is: Metal Working Shop, Lake Ann, Michigan.

A notice of intent to delete the site was published September 10, 1992 (57 FR 41452). The closing date for comments on the Notice of Intent to Delete was October 13, 1992. EPA received no comments and will therefore prepare no responsiveness summary.

The EPA identifies sites which appear to present a significant risk to public health, welfare, or the environment and it maintains the NPL as the list of those sites. Sites on the NPL may be the subject of Hazardous Substance Response Trust Fund (Fund-) financed remedial actions. Any site deleted from the NPL remains eligible for Fund-financed remedial action in the unlikely event that conditions at the site warrant such action. Section 300.425(e) of the NCP states that Fund-financed actions may be taken at sites deleted from the NPL.

Deletion of a site from the NPL does not affect responsible party liability or impede agency efforts to recover costs associated with response efforts.
