PREAMBLE

The purpose of this document is to provide the public with an index to the documents in the Administrative Record established by the U.S. Environmental Protection Agency (“EPA”) with respect to the Explanation of Significant Differences, dated April 16, 2026, for the selected remedial action to respond to conditions at the San Jacinto River Waste Pits Superfund Site (the “Site”). This Administrative Record incorporates by reference the Final Administrative Record for the Record of Decision, San Jacinto River Waste Pits, dated October 11, 2017. EPA’s action is authorized by the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), 42 U.S.C. § 9601 *et seq.*

Section 113 (j)(1) of CERCLA, 42 U.S.C. § 9613 (j)(1), provides that judicial review of the adequacy of a CERCLA response action shall be limited to the Administrative Record (AR). Section 113 (k)(1) of CERCLA, 42 U.S.C. § 9613 (k)(1), requires the EPA to establish an AR upon which it shall base the selection of its remedial actions. As the EPA decides what to do at the site of a release of hazardous substances, it compiles documents concerning the site and its decision into an “AR File.” This means that documents may be added to the AR File from time to time. After the EPA Regional Administrator or the Administrator’s delegate signs the decision document memorializing the selection of the action, the documents which form the basis for the selection of the response action are then known as the Administrative Record or AR.

The AR for the Explanation of Significant Differences is available for review at:
<https://semspub.epa.gov/src/collections/06/AR/TXN000606611>.

Section 113(k)(1) of CERCLA requires the EPA to make the AR File available to the public at or near the site of the response action. Accordingly, the EPA has established a repository where the AR File is available for review near the Site at:

Highlands Public Library
Stratford Branch
509 Stratford
Highlands, Texas 77562
Contact: Mandy Sheffield
(281) 426-3521

and

Texas Commission on Environmental Quality
Central File Room
12100 Park 35 Circle, Building E
Austin, Texas 78753
Contact: John Flores
(512) 239-2900

NOTICE: For up-to-date instructions for records viewing alternatives, please visit
<https://www.tceq.texas.gov/agency/data/records-services/fileroom.html>.

The public also may review the AR File at the EPA Region 6 office in Dallas, Texas, by contacting the Remedial Project Manager, Robert Appelt, at the address listed below:

Robert Appelt, RPM
U.S. Environmental Protection Agency, Region 6
1201 Elm Street, Suite 500
Dallas, TX 75270
appelt.robert@epa.gov
214-665-2730
Or 800-533-3508

This index and the AR File were compiled in accordance with EPA's Revised Guidance on Compiling Administrative Records for CERCLA Response Actions, dated September 20, 2010.

Documents listed as bibliographic sources for other documents in the AR File might not be listed separately in the index. Where a document is listed in the index but not located among the documents which the EPA has made available in the repository, the EPA may, upon request, include the document in the repository or make the document available for review at an alternate location. This applies to documents such as verified sampling data, chain of custody forms, guidance and policy documents, as well as voluminous site-specific reports. It does not apply to documents in EPA's confidential file

Consistent with 40 CFR Sections 300.805(a)(2) and 300.810(a)(2), documents in the AR File Index include references to guidance documents which may form a basis for the selection of the response action in question, and these guidance documents will be provided upon request.

The documents included in the AR File index are arranged predominantly in chronological order. The AR File index helps locate and retrieve documents in the file. It also provides an overview of the response action history. The index includes the following information for each document:

- **Doc ID**- The document identifier number.
- **Date** - The date the document was published and/or released.
- **Pages** - Total number of printed pages in the document, including attachments.
- **Title** - Descriptive heading of the document.
- **Document Type** - General identification, (e.g. correspondence, Remedial Investigation Report, Record of Decision.)
- **Author** - Name of originator, and the name of the organization that the author is affiliated with. If either the originator name or the organization name is not identified, then the field is captured with the letters "N/A".
- **Addressee**- Name and affiliation of the addressee. If either the originator name or the organization name is not identified, then the field is captured with the letters "N/A".
