November 14, 1988

Mr. H. Steven Livesay, Chairman
Combustion, Inc. Technical Committee
c/o Ethyl Corporation
451 Florida Boulevard
Baton Rouge, LA 70801

W.O.# 85-04

RE: October Site Monitoring Report for Combustion, Inc.

Dear Mr. Livesay:

The purpose of this letter is to provide a brief update on activities at the Combustion, Inc. site for the month of October 1988.

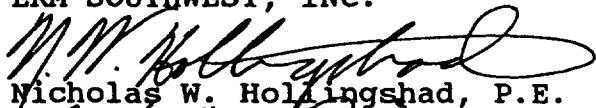

Weekly site inspection reports for October 1988 are provided in Attachment 1. Followup on items noted in the inspections and other activities are highlighted below:

- o The caretaker noted apparent authorized entry (i.e., with key) to the Pond Area on October 6 and 7. Some of the weeds and small trees growing in the area were cut down by the visitor(s). No other disturbances, damage, etc. were noted in the area.
- o On October 14, the Pond N discharge stopped due to the dry weather. Flow stopped before the monthly discharge sample could be collected, so there was no discharge sample for October.

If you have any questions on this report, or if you need additional information, please call us.

Sincerely,

ERM-SOUTHWEST, INC.

Nicholas W. Hollingshad, P.E.

Michael E. Pisani, P.E.
Principal

4. Inspect concrete containment area around tanks for cracks or other deterioration.

OK See Note Below

5. Inspect each drum for leaks. OK See Note Below
(give color, location, markings, etc. to identify leaking drum(s)).

6. Inspect ground inside fence for stains, trash, etc.

OK See Note Below

7. Describe any unusual odors, where observed, and wind direction.

OFFSITE AREAS

8. Inspect drainage ditches north and south of Process Area for oil sheens, vegetation damage, or indication of potential release from the site.

North Ditch OK See Note Below

South Ditch OK See Note Below

NOTES ON PROCESS AREA INSPECTION

Explain any detected damage/problems/potential releases noted above.

None

COMBUSTION, INC. SITE WEEKLY INSPECTION FORM

POND AREA INSPECTION

SITE SECURITY

9. The gate to the Pond Area should be closed, locked, secure and undamaged, and show no sign of unauthorized entry.

OK See Notes, p. 4 of 4

10. Walk the entire fenceline, inspect fence for damage or signs of unauthorized entry.

OK See Notes, p. 4 of 4

ONSITE AREAS

11. Inspect each Pond for signs of overflows, blockage of inlet or outlet pipes/ditches (where visible), weakness or failure of dike, significant change in pond level, etc.
