Dear Mr Rice

The Nebraska Department of Environmental Quality has reviewed the draft Record of Decision for the Sherwood Medical Company Superfund site at Norfolk, Nebraska

We understand EPA's selected remedy will include continuing delivery of safe drinking water to affected residences remediating the entire contaminated aquifer and clean up of contaminated soil source areas

We believe the selected remedy will be protective of human health and the environment and will comply with State law. The selected remedy is also the best balance of effectiveness implementability and cost. Therefore the Department concurs with the EPA proposed Record of Decision for the Sherwood Medical site

Sincerely,

Randolph Wood
