## **Portland Harbor Field Day**

Sunday, July 8th - 11am to 3pm, at Cathedral Park (next to the boat ramp on the downriver side of the St. Johns Bridge, at the end of Baltimore Ave)!

Learn about the environmental cleanup of the lower Willamette River.

There will be informational displays from many organizations involved in the cleanup process, such as federal, state and local agencies and local riverside industries, as well as community and environmental groups working to ensure a successful cleanup, and a healthy environment.

We will be joined by representatives of several regional tribes to share traditional music and stories.

Free jet boat tours of the Portland Harbor will be available, however be aware that space is limited, so you should come early to sign up for a boat ride (first come, first served), and don't be surprised if the boats fill up fast. Don't worry, even if you don't get on a boat, there will be other fun activities and great resources of information.
