

RESTORING THE COMMUNITY FABRIC – PLANNING REDEVELOPMENT OF THE US FINISHING/CONE MILLS SUPERFUND SITE

The restoration and redevelopment of historic industrial sites to commercial and residential use can provide areawide benefits for communities and local governments. This webinar will highlight the ongoing redevelopment process at the US Finishing/Cone Mills Superfund site in Greenville, South Carolina. Speakers will share the framework for redeveloping the site and creative strategies for overcoming challenges associated with redevelopment. The webinar will discuss the careful coordination between multiple parties to plan the innovative mixed-use redevelopment. Speakers will share lessons learned and recommendations for successfully navigating the redevelopment process and eliciting community buy in.
