URGENT LEGAL MATTER -- PROMPT REPLY NECESSARY CERTIFIED MAIL: RETURN RECEIPT REQUESTED

28782

'DEC 19 2001
Three R Transportation, Inc. c/o Robert G. Funke, Esq. 58 Tremont Street
P.O. Box 628
Taunton, MA 02780

Re: Notice of Potential Liability and Request for Information Pursuant to Section 104 of CERCLA at Operable Unit Two of the Peterson/Puritan, Inc. Superfund Site which includes the J.M. Mills Landfill in Cumberland, Rhode Island.

Dear Mr. Funke:

This letter serves to formally notify Three R Transportation, Inc. of the potential liability which it has or may have incurred with respect to Operable Unit Two of the Peterson/Puritan, Inc. Superfund Site which includes the J.M. Mills Landfill, in Cumberland, Rhode Island ("Site"). In addition, this letter requests that you pay certain costs related to the Site and that you prepare to participate in the conduct or financing of certain clean-up activities at the Site. This letter seeks your cooperation in providing information and documents relating to the environmental conditions at, and cleanup of, the Site.

NOTICE OF POTENTIAL LIABILITY

The United States Environmental Protection Agency ("EPA") has documented the release or threatened release of hazardous substances, pollutants or contaminants at the Site.

Under Sections 106(a) and 107(a) of the Comprehensive Environmental Response. Compensation, and Liability Act, 42 U.S.C. §§ 9606(a) and 9607(a) ("CERCLA"), and other laws, responsible parties may be obligated to undertake actions deemed necessary by EPA to protect the public health, welfare or environment. Responsible parties may also be liable for all costs incurred by the government in responding to any release or threatened release at the Site. Such costs may include, but are not limited to, expenditures for investigation, planning, clean-up response and enforcement activities. In addition, responsible parties may be required to pay damages for injury to, destruction of, or loss of natural resources, including the costs to assess such damages.

Responsible parties under CERCLA include persons who are current or former owners and/or operators of a site, persons who arranged for disposal of hazardous substances at a site, or persons who accepted hazardous substances for transport to a site selected by such persons.

EPA has evaluated a large body of evidence in connection with its investigation of the Site, including Site business records, manifests, state records, and corporate records. Based on this evidence, EPA has information indicating that you are a potentially responsible party ("PRP") with respect to this Site. Specifically, EPA has reason to believe that you accepted hazardous substances for transport to disposal or treatment facilities and selected this Site for disposal.

By this letter, EPA notifies you of your potential liability with regard to this matter. EPA also encourages you, as a PRP, to reimburse EPA for the costs incurred to date as set out below. At the present time, CCL Custom Manufacturing, Inc. ("CCL") is under an obligation to perform all of the work for the Remedial Investigation and Feasibility Study ("RI/FS") and Bestfoods is under an obligation to finance the RI/FS at the Peterson/Puritan Site through a July 13, 2001 Second Amendment to the Administrative Order on Consent ("Second Amendment"). EPA encourages you to voluntarily enter into discussions with CCL and Bestfoods and to cooperate and participate with CCL and Bestfoods in the performance of the RI/FS at the Site.

DEMAND FOR PAYMENT OF COSTS

In accordance with CERCLA and other authorities, EPA has undertaken certain actions and incurred costs in response to conditions at the Site. These response actions are described below. The costs to date associated with these actions are approximately \$762,131.45, excluding interest. EPA anticipates that it will expend additional funds for response activities at the Site under the authority of CERCLA and other laws, including those response activities described below.

In accordance with Section 107(a) of CERCLA, 42 U.S.C. § 9607(a), a demand is hereby made for payment of the above amount, and all interest authorized to be recovered under that Section or under any other provisions of law. Demand is also hereby made under these authorities for payment of all future costs, and interest thereon, that EPA may accrue in regard to the Site.

In the event the addressee of this notice intends or has already filed for dissolution or reorganization under bankruptcy laws, you are hereby requested to include EPA-Region I, and the United States Department of Justice on any mailing or notice lists used in that proceeding. The United States reserves the right to file a proof of claim or application for reimbursement of administrative expenses in such a proceeding.

Contained in Enclosure F of this letter is a current summary of the costs expended for this Operable Unit of the Site. As you may be aware, PRPs are entitled to review the invoices which form the basis for EPA's past costs. Some of these documents may contain information that EPA's contractors claim is entitled to confidential treatment. The Agency's past practices has been to obtain the consent of the contractors pursuant to 40 C.F.R. 2.209(f) (confidential business information regulations) before releasing this information to PRPs. These regulations, however, have been revised to allow information on past costs to be released provided that the interested party sign a Confidential Business Information Agreement ("Agreement") not to disclose this information.

This Agreement is necessary to protect the interests of the submitters in the confidentiality of the business information. No party is under any obligation to execute this Agreement. Without executing this Agreement, however, the Agency cannot release documentation on past costs. If you are interested in reviewing these documents, please contact the Peterson/Puritan, Inc. Superfund Information Line ("Information Line") at 617-918-1177. The Information Line was developed by EPA to ensure that both your general and specific questions would be handled in a timely and consistent manner. Please leave a detailed message and we will make every effort to return your call within two business days.

INFORMATION REQUEST

EPA is continuing with its investigation into the release or threatened release of hazardous substances, pollutants, and contaminants at the Site. This investigation includes an inquiry into the identification, nature, source, and quantity of materials transported to or generated, treated, stored, or disposed of at the Site. EPA is also seeking information concerning those persons responsible for the cleanup of the Site and their ability to undertake or finance that cleanup.

Pursuant to the authority of Section 104(e) of CERCLA, 42 U.S.C. § 9604(e), you are hereby requested to respond to the Information Request set forth in Enclosure A to this letter.

While EPA seeks your voluntary cooperation in this investigation, compliance with the Information Request is required by law. Failure to provide a complete truthful response to this Information Request within thirty (30) days of your receipt of this letter, or to adequately justify such failure to respond, may subject you to an enforcement action by EPA pursuant to Section 104(e) of CERCLA. This provision permits EPA to seek the imposition of penalties of up to twenty-seven thousand five hundred dollars (\$27,500) for each day of non-compliance.

Please note that responses which are incomplete, ambiguous, or evasive will be treated as complete non-compliance with this Information Request. Also be further advised that provision of false, fictitious, or fraudulent statements or representations may subject you to criminal penalties under 18 U.S.C. § 1001.

This Information Request is not subject to the approval requirements of the Paperwork Reduction Act of 1980, 44 U.S.C. § 3501 et seq.

RESPONSE ACTIVITIES AT THE SITE

EPA has already conducted the following activities at the Site:

- 1. A time-critical removal action in response to tanks, still bottoms and drums located at the Site and to restrict access to the Site in the construction of a fence; and
- 2. A time-critical removal action in response to asbestos disposal and fence repair.

EPA is planning to conduct the following activities at the Site:

- 1. Remedial Investigations to identify the local characteristics of the Site and to define the nature and extent of soil, air, surface water and ground water contamination at the Site;
- 2. Feasibility Studies to evaluate the feasibility of possible remedial actions to remove or contain hazardous substances, pollutants and contaminants at the Site;
- 3. Design and implementation of a Remedial Action for the Site to be approved by EPA; and
- 4. Operation, maintenance and monitoring of the Site as deemed necessary by EPA.

In addition to those enumerated above, EPA may, pursuant to its authorities under CERCLA and other laws, decide that other response activities are necessary to protect public health, welfare or the environment.

SPECIAL NOTICE AND NEGOTIATION MORATORIUM

At an appropriate point in the future, you will receive an additional notice informing you that one or more of the above activities is pending and that your cooperation is being requested to negotiate the terms of an agreement to perform or finance these activities.

This forthcoming notice will serve to inform you that EPA is using either CERCLA Section 122(e) Special Notice procedures to formally negotiate the terms of a consent order or consent decree to conduct or finance site response activities at the site or it will inform you that EPA is not using such procedures pursuant to Section 122(a). If EPA does not use Section 122(e) Special Notice procedures, the Section 122(a) notice will explain why the Special Notice procedures were not appropriate in this case. Under Section 122(e), EPA has the discretionary authority to invoke Special Notice procedures if EPA determines that such procedures would facilitate an agreement between EPA and the PRPs and would expedite remedial action at the site. Use of the Special Notice procedure triggers a moratorium on certain EPA activities at the site. The purpose of the moratorium is to provide a period of time when PRPs and EPA may enter into formal negotiations allowing PRPs the opportunity to conduct or finance the response activities at the Site.

ENCLOSURE INFORMATION

- Information Request Questions for Operable Unit 2 of the Peterson/Puritan, Inc. Superfund Site, which includes the J. M. Mills Landfill in Cumberland, Rhode Island, hereafter referred to as the "Site". (Enclosure A)
- A description of the Site, specifically Operable Unit 2 which includes the J. M. Mills Landfill. (Enclosure B)

- An Information Request Waste Survey Chart that must be completed along with the Information Request Questions. (Enclosure C)
- An Information Request Carrier Survey Chart that must be completed along with the Information Request Questions. (Enclosure D)
- A list of the names and addresses of potentially responsible parties to whom this notification was provided. This list represents EPA's preliminary findings on the identities of potentially responsible parties. EPA's responsible party search is continuing. Inclusion on or exclusion from the list does not constitute a final determination by the Agency concerning the liability of any party for the hazard or contamination at the Site. (Enclosure E)
- A current Site Cost Summary for OU 2. (Enclosure F)
- An Information Sheet for Small Businesses. (Enclosure G)
- A discretionary release of certain documentation concerning your involvement at the Site. This information has been provided in the attached compact disc. If you are unable to access this information, please contact the Information Line at 617-918-1177 and your call will be returned.
- A discretionary release of dump receipts and bills of lading which should assist you in answering some of the information request questions. (Attachments 1 through 10)

PRP Steering Committee:

EPA recommends that all PRPs meet to form a PRP steering committee which will function as a group representing and pursuing the interests of the PRPs. Establishing a manageable group is a critical component of the negotiation process. To facilitate negotiations at an appropriate time in the future, EPA will conduct a meeting with responsible parties. At the meeting, EPA will detail the existing knowledge about conditions at the Site and describe the past response activities that have been taken at the Site to date. Since there may be a large number of PRPs, EPA may request that the individual persons or company representatives who attend the meeting appoint a committee to represent them in negotiations.

Administrative Record

In accordance with Section 113(k) of CERCLA, EPA must establish an administrative record containing the documents used by EPA to select the appropriate response action for the Site. An administrative record for Operable Unit 1 of the Site has been previously established. An administrative record for Operable Unit 2 of the Site will also be established. The administrative record will be available to the public for inspection and comment at:

EPA Records Center 1 Congress Street Boston, MA 02114-2023 Telephone No. 617-918-1440

Another copy of the administrative record will also be made available at the Cumberland Public Library at 1464 Diamond Hill Road in Cumberland, Rhode Island.

TIMING AND FORM OF RESPONSE TO THIS LETTER

In addition to your continued obligations with respect to the ongoing Information Request, you as a potentially responsible party, should notify EPA in writing within <u>twenty-one (21) days</u> from receipt of this letter regarding your willingness to perform or finance the response activities described above. If EPA does not receive a timely response, EPA will assume that your company does not wish to negotiate a resolution of its liabilities in connection with the Site and that your company has declined any involvement in performing the response activities.

Your letter should indicate the appropriate name, address, and telephone number for further contact with you. If you are already involved in discussions with state or local authorities, engaged in voluntary clean-up action, or involved in a lawsuit regarding this Site, you should continue such activities as you see fit. This letter is not intended to advise you or direct you to restrict or discontinue any such activities; however, you are advised to report the status of those discussions or actions in your response to this letter and to provide a copy of your response to any other parties involved in those discussions or actions.

Your response letter should be sent to:

David J. Newton Remedial Project Manager U.S. Environmental Protection Agency P.O. Box 6329 Boston, MA 02114-6329

If you have general questions concerning the Site, please contact David Newton at the above address. If you have any legal questions relevant to the Notice of Liability, the ongoing obligation to the Information Request, or if your attorney wishes to communicate with EPA on your behalf, please contact Michelle Lauterback, Enforcement Counsel, U.S. Environmental Protection Agency,1 Congress Street, Suite 1100 (SES), Boston, MA 02114-2023, or you may call the Information Line at 617-918-1177 and your call will be returned.

The factual and legal discussions in this letter are intended solely to provide notice and information, and such discussions are not to be construed as a final agency position on any matter set forth herein. Due to the seriousness of the environmental and legal problems posed by conditions at the Site, EPA urges that immediate attention and a prompt response be given to this letter.

By copy of this letter, EPA is notifying the State of Rhode Island and the Federal Natural Resource Trustee(s) of our intent to perform or enter into negotiations for the performance or financing of response actions at the Site.

Thank you for your cooperation in this matter.

Sincerely,

Patricia L. Meaney, Director

Office of Site Remediation and Restoration

INFORMATION REQUEST FOR

Operable Unit Two at the Peterson/Puritan, Inc. Superfund Site Cumberland, Rhode Island

Period Being Investigated: 1954-1986

In addition to the questions which follow, this enclosure includes a <u>declaration</u>, detailed <u>instructions</u> for responding to this request, and <u>definitions</u> of words such as "Respondent," "identify," "waste," and "asset" used in the questions. These materials appear at the end of the questions; please refer to them in answering <u>all</u> questions. Of particular importance:

- Answer each question with respect to the period being investigated noted above unless the question indicates otherwise.
- Answer all questions completely in accordance with the definitions and instructions.
- Complete the enclosed declaration.
- For each question, identify all persons and documents relied upon in the preparation of the answer.
- All information provided for which you are making a claim of business confidentiality or which contains personal privacy information should be contained on separate sheets and clearly marked as confidential or private.
- This request imposes a continuing obligation upon you to submit responsive information discovered after your original response is submitted to EPA.
- Please refer to Attachments 1 through 10 to assist with responses to the Information Request.

INFORMATION REQUEST QUESTIONS

1. <u>Information or Knowledge of Waste Delivered to the J.M. Mills Landfill:</u>

NOTE: In response to the August 24, 2000 Information Request you indicated that the CEO of The Three R's Transportation, Inc. ("Three R's"), Mr. Calvin C. Overlock, said the company never hauled rubbish until 1981 and never made any deliveries to the J.M. Mills Landfill (also referred to as "Mills") in Cumberland, RI. Please see the attached documentation, Attachments 1 through 10, which specifically show that Three R's hauled waste to the J.M. Mills Landfill between October 1978 and January 1979. Please indicate in your response to the individual questions below whether this evidence refreshes Mr. Overlock's recollection of these or additional deliveries to the J.M. Mills Landfill.

NOTE: All questions in this section refer to the period being investigated unless otherwise indicated.

- a. For the following questions, please refer to Attachment #1, which contains Three R's transaction number #33 dated October 19, 1978 and the corresponding bills of lading receipts identified as Control No. 2361 and 2362. Please define and explain the following:
 - i. "Load of Batteries to Mills";
 - ii. size of the load;
 - iii. type(s) of battery:
 - iv. physical condition of batteries (e.g. solid or semi-solid, leaking);
 - v. type of container(s) used to transport batteries;
 - vi. condition of transport containers (e.g. sealed or punctured, closed or open);
 - vii. type of vehicle used to transport;
 - viii. method of removal from transportation vehicle; and
 - ix. amount of time each load was possessed by Three R's.
- b. The following questions specifically refer to Control No. 2361 in Attachment #1. Please define and explain the following:
 - i. "30 Yd. Batteries for Disposal";
 - ii. explanation of "yd." quantity and/or volume;
 - iii. "compactor"; and
 - iv. "+50 O/T of Batteries".
- c. The following questions specifically refer to Control No. 2362 in Attachment #1. Please define and explain the following:
 - i. "Exchange 50YD O/T";

- ii. "opentop";
- iii. capacity and/or volume of "opentop"; and
- iv. difference(s) (if any) between "opentop" and "compactor".
- d. For the following questions, please refer to Attachment #2, which contains Three R's transaction number #44 dated October 26, 1978. Please define and explain the following:
 - i. "Load of Sludge to Mills";
 - ii. size of the load;
 - iii. physical and chemical composition/characteristics of the sludge;
 - iv. type of vehicle used to transport the sludge;
 - v. type and condition of containers used to transport the sludge; and
 - vi. removal process of sludge from the transportation vehicle.
- e. For the following questions, please refer to Attachment #3, which contains Three R's transaction number #64 dated November 17, 1978. Please define and explain the following:
 - i. "Mills Slip";
 - ii. "Load of Drums to Mills";
 - iii. volume of drums;
 - iv. material and condition of drums;
 - v. content of drums and content's characteristics; and
 - vi. removal process of drums from transportation vehicle.
- f. The following questions specifically refer to Control No. 2668 in Attachment #3. Please define and explain the following:
 - i. "Load off Sludge";
 - ii. process of load off; and
 - iii. resting place of sludge at the site after unloading (e.g., proximity to the river, railroad tracks, or boundaries of the landfill).
- g. The following questions specifically refer to Control No. 2545 in Attachment #4. Please define and explain the following:
 - i. "Bulk Sludge in Roll-Off";
 - ii. characteristics of "bulk sludge";
 - iii. differences between "bulk sludge" and "sludge"; and
 - iv. details of the "roll-off" process.
- h. The following questions specifically refer to Control No. 2570 in Attachment #4. Please define and explain the following:
 - i. "Sawdust Sludge";

- ii. reason for the correction:
- iii. whether sawdust was used for absorption; and
- iv. if used for absorption, the type and nature of substance that was absorbed.
- i. The following questions specifically refer to Control No. 2721 in Attachment #5. Please define and explain the following:
 - i. "30 yds Organic sludge";
 - ii. composition and characteristics of organic sludge; and
 - iii. difference(s) between "organic sludge," "sludge," and "bulk sludge".
- j. The following questions specifically refer to Control No. 2763 in Attachment #6. Please define and explain the following:
 - i. "ORM Bulk Lime Sludge with Iron";
 - ii. composition and characteristics of lime sludge;
 - iii. composition and characteristics of the "iron"; and
 - iv. difference(s) between "bulk lime sludge with iron", "lime sludge", "organic sludge", and "sludge".
- k. The following questions specifically refer to Control No. 2789 in Attachment #6. Please define and explain the following:
 - i. "Filters & Trash for Disposal";
 - ii. nature, characteristics, and use of the filters; and
 - iii. composition of the trash.
- 1. The following questions specifically refer to Control No. 3117 in Attachment #7. Please define and explain the following:
 - ii "Fly Ash";
 - ii composition and particle size of "Fly Ash";
 - ii the discrepancies between Control No. 3117 which states "Fly Ash" and the corresponding Three R's transaction #137 which states "Load of Sludge to Mills"; and
 - ii whether Three R's performed a "pick-up at Boston Edison Mystic Station" and delivered the waste directly to the J.M. Mills Landfill.
- m. The following questions specifically refer to Control No. 3108 in Attachment #7. Please define and explain the following:
 - i. "Box sludge";
 - ii. composition and characteristics of box sludge; and

- iii. difference(s) between "box sludge", "bulk lime sludge with iron" (Control No. 2763), "lime sludge" (Control No. 2763), "organic sludge" (Control No. 2721), and "sludge" (Control No. 2668).
- n. For the following questions, please refer to Attachment #8, which contains Three R's transaction number #147 dated December 28, 1978 and the corresponding bill of lading receipts identified as Control No. 3241, 3243, 3109, and 3254. Please define and explain the following:
 - i. "Load of Rueping East to Mills";
 - ii. composition and characteristics of the load;
 - iii. size, weight, and state (e.g., solid, liquid, or gas) of the load; and
 - iv. who, what, or where is "Rueping East".
- o. The following questions specifically refer to Control No. 3241 in Attachment #8. Please define and explain the following:
 - i. "Crushed empty scrap drums";
 - ii. difference between "scrap drums" and "drums"; and
 - iii. condition and type of drums (e.g., left open or sealed, punctured or intact).
- p. The following questions specifically refer to Control No. 3243 in Attachment #8. Please define and explain the following:
 - i. "Leather trimmings";
 - ii. composition and characteristics of the leather trimmings; and
 - iii. quantity of leather trimmings.
- q. Please describe in general the material, volume, and particular use of transportation containers, as well as the types of waste found in these containers used by Three R's to bring waste to the J.M. Mills Landfill including, but not limited to:
 - i. drums;
 - ii. cartons:
 - iii. pails;
 - iv. tanker trucks;
 - v. packer trucks;
 - vi. roll-off trucks; and
 - vii. pickup trucks.
- r. Please describe:
 - i. how waste (including but not limited to sludge, bulk sludge, organic sludge, lime sludge, bulk lime sludge with iron, box sludge, fly ash, and leather trimmings) was transported;

- ii. whether transportation containers remained at the site (e.g., containers were emptied at the landfill or containers were unloaded at the landfill without being emptied); and
- iii. where waste was unloaded at the J.M. Mills Landfill.
- s. Please describe the relationship between Three R's and Recycling Industries ("Recycling") as demonstrated in Attachment #9, including:
 - i. the daily operations;
 - ii. the hauling arrangements (e.g., was Three R's hired by Recycling to transport waste to Recycling and also from Recycling to the J.M. Mills Landfill. Include a description of the frequency, volume and kinds of waste);
 - iii. the accounts and/or billing arrangements.
- t. In answering the questions above, please also consider Attachment #10, which contains additional evidence that Three R's hauled waste to the J.M. Mills Landfill.

2. Information About Others:

- a. If you have information concerning the operation of the Site or the source, content or quantity of materials placed/disposed at the Site that is not included in the information you have already provided, provide all such information.
- b. If not already included in your response, if you have reason to believe that there may be persons able to provide a more detailed or complete response to any of these questions or who may be able to provide additional responsive documents, identify such persons and the additional information or documents that they may have.
- c. If not already provided, identify all persons, including Respondent's current and former employees, who have knowledge or information about the generation, use, purchase, treatment, storage, disposal, placement or other handling of materials at, or transportation of materials to, the Site.

3. Compliance with This Request:

- a. Describe all sources reviewed or consulted in responding to this request, including but not limited to:
 - i. the names of all individuals consulted;
 - ii. the current job title and job description of each individual consulted;
 - iii. the job title and job description during the period being investigated of each individual consulted;
 - iv. whether each individual consulted is a current or past employee of Respondent;
 - v. the names of all divisions of Respondent for which records were reviewed;

- vi.
- the nature of all documents reviewed; the locations where those documents reviewed were kept prior to review; vii.
- the location where those documents reviewed are currently kept. viii.

INFORMATION REQUEST INSTRUCTIONS

- 1. <u>Answer Every Question Completely</u>. You are required to provide a <u>separate</u> answer to <u>each</u> and <u>every</u> question and subpart of a question set forth in this Information Request. Incomplete, evasive, or ambiguous answers shall constitute failure to respond to this Information Request and may subject you to the penalties set out in the cover letter.
- 2. <u>Number Each Answer</u>. Number each answer with the number of the question to which it corresponds.
- 3. <u>Provide Information about the Period Being Investigated</u>. You are required to answer each question with respect to the period being investigated, unless the question specifically states otherwise. If the response fails to address the period being investigated, EPA will consider this a failure to comply with the request and may take action against you for this noncompliance.
- 4. Provide the Best Information Available. You must provide responses to the best of Respondent's ability, even if the information sought was never put down in writing or if the written documents are no longer available. You should seek out responsive information from current and former employees/agents. Submission of cursory responses when other responsive information is available to the Respondent will be considered non-compliance with this Information Request.
- 5. <u>Identify Sources of Answer</u>. For each question, identify (see Definitions) all the persons and documents that you relied on in producing your answer.
- 6. <u>Submit Documents with Labels Keyed to Question</u>. For each document produced in response to this Information Request, indicate on the document (or in some other reasonable manner) the number of the question to which it responds.
- 7. Continuing Obligation to Provide/Correct Information. If additional information or documents responsive to this Request become known or available to you after you respond to this Request, EPA hereby requests pursuant to CERCLA Section 104(e) that you supplement your response to EPA. Failure to supplement your response within 30 days of discovering such responsive information may subject you to \$27,500 per day penalties. If at any time after the submission of this response, you discover or believe that any portion of the submitted information is false or misrepresents the truth, you must notify EPA of this fact as soon as possible and provide EPA with a corrected response. If any part of the response to this Information Request is found to be false, the signatory to the response and the company may be subject to criminal prosecution.
- 8. <u>Complete the Enclosed Declaration</u>. You are required to complete the enclosed declaration which certifies that the information you are providing in response to this Information Request is true, accurate, and complete.
- 9. <u>Confidential Information</u>. The information requested herein must be provided even though you may contend that it includes confidential information or trade secrets. You may assert a confidentiality claim covering part or all of the information requested, pursuant to Sections

104(e)(7)(E) and (F) of CERCLA, 42 U.S.C. §§ 9604(e)(7)(E) and (F), and 40 C.F.R. § 2.203(b). All information claimed to be confidential should be contained on separate sheet(s) and should be clearly identified as "trade secret" or "proprietary" or "company confidential." Personal financial information, including individual tax returns, may also be claimed as confidential. In addition, please note that you bear the burden of substantiating your confidentiality claim. Your claim of confidentiality should be supported by the submission of information supporting such a claim; the type of information to be submitted is set out in 40 C.F.R. Part 2. Information covered by a claim of confidentiality will be disclosed by EPA only to the extent, and only by means of the procedures, provided in 40 C.F.R. §§ 2.201-2.311. If no such claim accompanies the information when it is received by EPA, it may be made available to the public by EPA without further notice to you. Before asserting a business confidentiality claim, read the above cited regulations carefully because certain categories of information are not properly the subject of such a claim.

- 10. <u>Disclosure to EPA Contractor</u>. Information which you submit in response to this Information Request may be disclosed by EPA to authorized representatives of the United States, even if you assert that all or part of it is confidential business information. Please be advised that EPA intends to disclose all responses to this Information Request to one or more of its private contractors listed in the attached EPA Contractor List for the purpose of organizing and/or analyzing the information contained in the responses to this Information Request. If you are submitting information which you assert is entitled to treatment as confidential business information, you may comment on this intended disclosure within fourteen (14) days of receiving this Information Request.
- 11. <u>Personal Privacy Information</u>. Personnel and medical files, and similar files the disclosure of which to the general public may constitute an invasion of privacy should be segregated from your responses, included on separate sheet(s), and marked as "Personal Privacy Information." You should note however, that unless prohibited by law, EPA may disclose this information to the general public without further notice to you. (Please see Instruction 9 for information concerning treatment of individual tax returns.)
- 12. <u>Objections to Questions</u>. While the Respondent may indicate that it objects to certain questions in this Information Request, it must provide responsive information notwithstanding those objections. To object without providing responsive information may subject Respondent to the penalties set out in the cover letter.
- 13. <u>Claims of Privilege</u>. If you claim that any document responsive to this Information Request is a communication for which you assert that a privilege exists for the entire document, identify (see Definitions) the document and provide the basis for asserting the privilege. For any document for which you assert that a privilege exists for a portion of it, provide the portion of the document for which you are not asserting a privilege, identify the portion of the document for which you are asserting the privilege, and provide the basis for such an assertion. <u>Please note that regardless of the assertion of any privilege, any facts contained in the document which are responsive to the Information Request must be disclosed in your response.</u>

INFORMATION REQUEST DEFINITIONS

All terms not defined herein shall have their ordinary meaning, unless such terms are defined in CERCLA, 42 U.S.C. Section 9601 et seq., RCRA, 42 U.S.C. Section 6901 et seq., or Volume 40 of the Code of Federal Regulations (CFR), in which case such statutory or regulatory definitions shall apply.

The following definitions shall apply to the following words as they appear in this Enclosure:

- 1. The term "you" or "Respondent" shall mean the addressee of this Request, the addressee's officers, managers, employees, contractors, trustees, successors, assigns, and agents, and any predecessor or successor corporations or companies.
- 2. The terms "document" and "documents" shall mean any method of recording, storing, or transmitting information. "Document" shall include but not be limited to:
- (a) <u>writings of any kind</u>, formal or informal, whether or not wholly or partially in handwriting, including (by way of illustration and not by way of limitation) any of the following:
 - 1. invoice, receipt, endorsement, check, bank draft, canceled check, deposit slip, withdrawal slip, order;
 - 2. letter, correspondence, fax, telegram, telex;
 - 3. minutes, memorandum of meetings and telephone and other conversations, telephone messages;
 - 4. agreement, contract, and the like;
 - 5. log book, diary, calendar, desk pad, journal;
 - 6. bulletin, circular, form, pamphlet, statement;
 - 7. report, notice, analysis, notebook;
 - 8. graph or chart; or
 - 9. copy of any document.
 - (b) microfilm or other <u>film record</u>, <u>photograph</u>, or <u>sound recording</u> on any type of device;
 - (c) any tape, disc, or other type of memory generally associated with <u>computers</u> and <u>data</u> <u>processing</u>, together with:
 - 1. the programming instructions and other written material necessary to use such punch card, disc, or disc pack, tape or other type of memory; and
 - 2. printouts of such punch card, disc, or disc pack, tape or other type of memory; and
 - (d) attachments to or enclosures with any document as well as any document referred to in any other document.
- 3. The term "identify" or "provide the identity of" means, with respect to a natural person, to set forth: (a) the person's full name, (b) present or last known business and home addresses and

telephone numbers; (c) present or last known employer (include full name and address) with job title, position or business; and (d) the person's social security number.

- 4. The term "identify" or "provide the identity of" means, with respect to a corporation, partnership, business trust, government office or division, or other entity (including a sole proprietorship), to set forth: (a) its full name; (b) complete street address; (c) legal form (e.g. corporation, partnership, etc.); (d) the state under whose laws the entity was organized; and (e) a brief description of its business.
- 5. The term "identify" or "provide the identity of" means, with respect to a document, to provide: (a) its customary business description (e.g., letter, invoice); (b) its date; (c) its number if any (e.g., invoice or purchase order number); (d) the identity of the author, addressor, addressee and/or recipient; (e) and a summary of the substance or the subject matter. Alternatively, Respondent may provide a copy of the document.
- 6. The term "material" or "materials" shall mean any and all objects, goods, substances, or matter of any kind, including but not limited to wastes.
- 7. The terms "the period being investigated" and "the relevant time period" shall mean the period being investigated as specified on the first page of the Information Request Questions.
- 8. The terms "the Site" or "the facility" shall mean and include the property on or about the property locally known as the J. M. Mills Landfill in Cumberland, RI and further identified by EPA as the Second Operable Unit of the Peterson/Puritan, Inc. Superfund Site which is more fully described in the enclosed Site Description (Enclosure B).
- 9. The term "waste" or "wastes" shall mean and include trash, garbage, refuse, by-products, solid waste, hazardous waste, hazardous substances, and pollutants or contaminants, whether solid, liquid, or sludge, including but not limited to containers for temporary or permanent holding of such wastes.

Enclosure B

SITE DESCRIPTION

The Peterson/Puritan, Inc. Superfund Site consists of two Operable Units encompassing over two miles of mixed industrial/residential property in the towns of Cumberland and Lincoln, Rhode Island. The Site is situated in the north-central portion of Rhode Island along the Blackstone River and includes a portion of the Blackstone River Valley National Heritage Corridor.

Operable Unit 2 of the Site, sometimes referred to as the J.M. Mills Landfill, is located predominately in the town of Cumberland. Operable Unit 2 is surrounded by industrial, residential and semi-rural properties. Bordering the Site to the north is the Hope Webbing Company property located at 88 Martin Street. To the south is the Stop and Shop Market (and strip mall) on Mendon Road (Route 122). To the east is the Mackland Sand and Gravel operations and wetlands formerly known locally as "New River". Finally, to the west is the Blackstone River.

EPA has reason to believe that Operable Unit 2 of the Site was used for disposal of wastes, including wastes containing hazardous substances, from approximately 1954 to 1986. Within this period of time, the property was primarily used as a privately-owned, mixed municipal and industrial landfill. Sewer sludge was also disposed as part of the daily operation. Various types of large, bulky solid materials (including, but not limited to, tanks, crushed drums, pre-formed concrete structures, railroad ties, demolition debris) are deposited aside of the landfill, along the north and south access roads and along the bank of the Blackstone River. The Site includes an area to the south of the landfill which was a former transfer station. Materials were stored along the Providence and Worcester rail road tracks to the east bank of the Blackstone River. To the west, and including the Pratt Dam, there is an access point to a small unnamed island within the river. The Site also includes two access roads, current and former, from Martin Street to the north and Route 122 (Mendon Road) to the south. The now closed Lennox Street municipal well in Cumberland is located approximately 1000 feet South-east from the flank of the landfill. This well was closed by the Rhode Island Department of Health in 1979 due to the presence of volatile organic contaminants found in the supply water.

Preliminary samples taken from the Site indicate the presence of volatile organic contaminants (including, but not limited to, trichloroethylene, freon 11, 1,2-dichloroethene, 1,1,1-trichloroethane, benzene) and chromium, nickel, lead, in groundwater. Contaminants found in soils and sediments include benzo(a)pyrene, chrysene, indeno(1,2,3+cd)pyrene, bis(2-ethylhexyl)phthalate, aroclors, and asbestos insulation/transite.

EPA included the Peterson/Puritan, Inc. Site (which includes the J.M. Mills landfill) on the Superfund National Priorities List on September 8, 1983. EPA conducted two separate removal actions on the landfill (September 25, 1991 and September 12, 1997, respectfully) to prevent and maintain controls of unauthorized access to the property and protect against exposures to identified harmful contaminants until further assessments are made. EPA plans to conduct a Remedial Investigation and Feasibility Study to assess the need for additional environmental response(s) at the Site.

Office of Enforcement and Compliance Assurance

INFORMATION SHEET

U.S. EPA Small Business Resources

f you own a small business, the United States Environmental Protection Agency (EPA) offers a variety of compliance assistance and tools to assist you in complying with federal and State environmental laws. These resources can help you understand your environmental obligations, improve compliance and find cost-effective ways to comply through the use of pollution prevention and other innovative technologies.

EPA Websites

EPA has several Internet sites that provide useful compliance assistance information and materials for small businesses. Many public libraries provide access to the Internet at minimal or no cost.

EPA's Small Business Home Page (http://www.epa.gov/sbo) is a good place to start because it links with many other related websites. Other useful websites include:

EPA's Home Page http://www.epa.gov

Smail Business Assistance Programs http://www.epa.gov/ttn/sbap

Compliance Assistance Home Page http://www.epa.gov/oeca/oc

Office of Site Remediation Enforcement http://www.epa.gov/oeca/osre

Hotlines. Helplines and

Clearinghouses

EPA sponsors approximately 89 free hotlines and clearinghouses that provide convenient assistance on environmental requirements.

EPA's Small Business Ombudsman Hotline can provide a list of all the hot lines and assist in determining the hotline best meeting your needs. Key hotlines include:

EPA's Smail Business Ombudsman (800) 368-5888

Hazardous Waste/Underground Tanks/ Superfund (800) 424-9346

National Response Center (to report oil and hazardous substance spills) (800) 424-8802

Toxics Substances and Asbestos Information (202) 554-1404

Safe Drinking Water (800) 426-4791

Stratospheric Ozone and Refrigerants Information (800) 296-1996

Clean Air Technical Center (919) 541-0800 Wetlands Hotline (800) 832-7828

Continued on back

Office of Regulatory Enforcement Website: http://www.epa.gov/oeca/ore.html

U.S. EPA SMALL BUSINESS RESOURCES

Compliance Assistance Centers

In partnership with industry, universities, and other federal and state agencies, EPA has established national Compliance Assistance Centers that provide Internet and "faxback" assistance services for several industries with many small businesses. The following Compliance Assistance Centers can be accessed by calling the phone numbers below and at their respective websites:

Metal Finishing (1-800-AT-NMFRC or www.nmfrc.org)

Printing (1-888-USPNEAC or www.pneac.org)

Automotive Service and Repair (1-888-GRN-LINK or www.ccar-greenlink.org)

Agriculture (1-888-663-2155 or www.epa.gov/oeca/ag)

Printed Wiring Board Manufacturing (1-734-995-4911 or www.pwbrc.org)

The Chemical Industry (1-800-672-6048 or www.chemalliance.org)

The Transportation Industry (1-888-459-0656 or www.transource.org)

The Paints and Coatings Center (1-800-286-6372 or www.paintcenter.org)

State Agencies

Many state agencies have established compliance assistance programs that provide on-site and other types of assistance. Contact your local state environmental agency for more information. For assistance in reaching state agencies, call EPA's Small Business Ombudsman at (800)-368-5888 or visit the Small Business Environmental Homepage at http://www.smallbizenviroweb.org/state.html.

Compliance Incentives

EPA provides incentives for environmental compliance. By participating in compliance assistance programs or voluntarily disclosing and promptly correcting violations, businesses may be eligible for penalty waivers or reductions. EPA has two policies that potentially apply to small businesses: The Audit Policy (http://www.epa.gov/oeca/auditpol.html) and the Small Business Policy (http://www.epa.gov/oeca/

smbusi.html). These do not apply if an enforcement action has already been initiated.

Commenting on Federal Enforcement Actions and Compliance Activities

The Small Business Regulatory Enforcement Fairness Act (SBREFA) established an ombudsman ("SBREFA Ombudsman") and 10 Regional Fairness Boards to receive comments from small businesses about federal agency enforcement actions. The SBREFA Ombudsman will annually rate each agency's responsiveness to small businesses. If you believe that you fall within the Small Business Administration's definition of a small business (based on your Standard Industrial Code (SIC) designation, number of employees or annual receipts, defined at 13 C.F.R. 121.201; in most cases, this means a business with 500 or fewer employees), and wish to comment on federal enforcement and compliance activities, call the SBREFA Ombudsman's toll-free number at 1-888-REG-FAIR (1-888-734-3247).

Your Duty to Comply

If you receive compliance assistance or submit comments to the SBREFA Ombudsman or Regional Fairness Boards, you still have the duty to comply with the law, including providing timely responses to EPA information requests, administrative or civil complaints. other enforcement actions or communications. The assistance information and comment processes do not give you any new rights or defenses in any enforcement action. These processes also do not affect EPA's obligation to protect public health or the environment under any of the environmental statutes it enforces, including the right to take emergency remedial or emergency response actions when appropriate. Those decisions will be based on the facts in each situation. The SBREFA Ombudsman and Fairness Boards do not participate in resolving EPA's enforcement actions. Also, remember that to preserve your rights, you need to comply with all rules governing the enforcement process.

EPA is disseminating this information to you without making a determination that your business or organization is a small business as defined by Section 222 of the Small Business Regulatory Enforcement Fairness Act (SBREFA) or related provisions.
