Re: Solvents Recovery Service of New England
Superfund Site, Southington, Connecticut

Dear Ms. Goldberg:

In response to the Request for Information, per letter from Merrill S. Hohman, dated November 6, 1992, please find enclosed a completed Information Request Form for Generators, prepared for Lockheed Sanders, Inc..

In completing the information as to waste type, we have, particularly for the transactions prior to 1976, relied upon the notations in the records which EPA furnished to Sanders. Where we were in possession of documents containing information inconsistent with, or in addition to, that contained in EPA's records, we have listed the wastes from our documents and attached the supporting documentation.

With regard to the identity of our transporters, we have no definite information for shipments prior to 1976. Our Mr. Norman Stone, a long-term employee of Sanders, has stated his recollection that, during the early sixties, Sanders' waste chemicals were picked up by New England Chemical, Merrimack, New Hampshire. For shipments beginning in 1976, correspondence from SRSNE indicates that SRSNE was our primary transporter. It appears that, for shipments occurring on June 16, August 31 and December 22, 1976, and March 24, 1977, third party transporters hauled the waste to the site. We are fairly certain that Sanders did not transport its own hazardous wastes.

Please note that this response differs from the information we provided you November 24, 1992, in that the transaction memorialized on SRSNE Invoice-Order No. 5911 is considered to be part of the transaction dated August 31, 1977, not an additional transaction as previously suspected. I have used the same assumptions in calculating the credit for reclaimed 1,1,1-Trichloroethene as were employed in the previous response.

Telephone (603) 885- 4556 , or -3271 / FAX (603) 885-2167

 **Lockheed Sanders, Inc.**

Page 2

If you require any additional information concerning the foregoing, please contact me or Thomas G. Fiore, Esq. at (617) 439-7500. Your indulgence in granting an extension of time in which to complete the Request for Information is greatly appreciated.

Sincerely yours,

Thomas X. Tsirimokos
Senior Staff Attorney

ENCLOSURE B

Solvents Recovery Service of New England
104(e) Information Request Form for Generators

1. Name of Respondent: Lockheed Sanders, Inc.
2. Date Information Request Completed: January 8, 1993
3. For each transaction listed on Form 1 (attached), identify by chemical name the type of waste material that the Respondent sent for treatment or disposal to the Site or sent with a transporter for treatment or disposal to the Site. If the chemical name is not known, please state the trade name and the name of the manufacturer. Also identify the transporter of each waste volume and identify who made the decision to bring the waste to the Site -- the transporter, generator, or broker. Attach copies of all documents consulted, examined, or referred to in the preparation of answers to these questions.
4. At the end of Form 1 and consistent with the format of Form 1, identify and provide complete information on any additional transactions which do not appear on Form 1 or transactions which are in some manner incorrectly recorded on Form 1. Attach copies of all documents which provide information on these transactions.
5. If you are not the generator of any of the wastes attributed to you in the listing of transactions on Form 1 (i.e., you sent waste materials to the Site for disposal or treatment that were generated by a person other than you), please complete steps a through d below:
 - a) Provide the information requested for that transaction on Form 1;
 - b) Highlight the transaction by placing an asterisk (*) to the left of the appropriate transaction date on Form 1; and
 - c) Provide the information requested on Form 2 (attached);
 - d) Attach copies of all documents consulted, examined, or referred in to the preparation of answers to these questions.
6. Please identify all persons consulted in the preparation of the answers to these questions. Indicate their relationship to the Respondent (e.g., current employee - environmental manager, past employee - maintenance department, etc.). Attach extra pages if necessary.

6. (continued)

PHONE: (203) 628-8084

May 25, 1978

Mr. Norman Stone
Sanders Associates, Inc.
P.O. Box 511
Nashua, NH 03060

Dear Norman:

This letter will confirm our discussions of May 12, 1978. Effective immediately we will take material for disposal and/or purchase under the following conditions:

All non-flammable solvents (both disposal and purchase) and acids will be picked up in drums only. We will schedule a truck for pickup in 80 drum lots as per our current procedure.

All flammable solvents will be picked up in bulk only. We will send our bulk truck to pump out of your drums. For quantities of 80 drums or more we will schedule our tanker as per current procedure. For quantities between 40 and 80 drums we will schedule pickup at our convenience. We will not pickup flammable solvents in quantities less than 2000 gallons.

Pickups may be scheduled at both Nashua and Manchester in order to obtain a full load.

If you have any questions regarding our procedural change, please do not hesitate to call.

Very truly yours,

Myron H. Smith

August 11, 1978

Mr. Norman Stone
Sanders Associates, Inc.
P.O. Box 511
Nashua, NH 03060

Dear Norman:

This letter will confirm our discussion today concerning disposal of Sanders Associates laboratory chemicals.

We are able to arrange for disposal of your miscellaneous laboratory chemicals packed into sealed open head 55 gallon steel drums at a cost of \$155.00 per drum, with a minimum quantity of 15 drums per pick-up.

Each drum must have a separate manifest identifying all chemicals inside, and all chemicals must be labeled in accordance with the Department of Transportation regulations. The packing must be sufficient to prevent chemical container breakage.

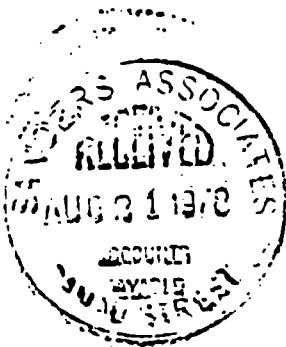

We are aware of the extremely high cost of this service caused by separate disposal of each chemical, and recommend you minimize your disposal cost by adjusting chemical ordering and usage to eliminate disposal caused by chemicals exceeding shelf life.

If you have any questions or if we can be of further service to you please do not hesitate to call.

Very truly yours,

Myron H. Smith

March 9, 1979

Mr. Norman Stone
Sanders Associates, Inc.
PO Box 511
Nashua, NH 03060

Dear Norm,

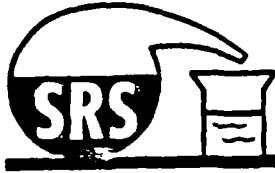

As a result of major price increases by the firm handling ultimate disposal of your non-flammable wastes, we are forced to institute the following disposal price schedule:

<u>MATERIAL</u>	<u>DISPOSAL COST PER DRUM</u>
KOH - KF LIQUID	\$ 40.00
KENCO	65.00
HCl - Fe Cl ₂ LIQUID Ferric & Muriatic	60.00
FLUOROBORIC ACID	60.00
10-20% H ₂ SO ₄ SULFURIC 10-20	45.00
LAC #41 CLEANER	70.00
THIOUREA	85.00
CHROMIC ACID	40.00
HNO ₃ - HF ACID Nitric & Hydrofluoric	65.00
HNO ₃ - (GREEN) ACID Nitric	75.00
CaCl ₂ - NH ₄ CUCL ₂	55.00
SHIPLEY AB 303	45.00
HCl MURIATIC	50.00
CuSO ₄ - H ₂ SO ₄	40.00

All items not on the above price schedule will be subject to a \$50.00 testing charge plus cost of disposal when received from our disposal source.

All solid drums received not requiring treatment prior to disposal will be billed at the current price of \$9.50 plus a \$35.00 surcharge to cover our cost of legal disposal.

The cost of laboratory drums will remain the same. A separate bill of lading is required for each laboratory drum.

Dear Norman:

Regarding your request to send in 55 drums of unidentified chlorinated solvents for disposal we will be able to handle the drums under the following conditions:

1. The normal chlorinated solvent disposal fee of \$9.50/drum will apply.
2. An additional fee of \$45/drum covering handling and analysis will be charged.
- * -3. Any #2 and #3 drum charges will also apply.
4. In the event analysis indicates drums have to be disposed of by other than normal means SRSNE reserves the right to charge Sanders accordingly on an after the fact basis.
5. In the event analysis indicates any of the drums are such that SRSNE can not properly dispose of the drums SRSNE reserves the right to return the drums to Sanders, charging Sanders for analysis, handling, and return transportation.

Notes:

- (1) The transaction date refers to the date the waste was delivered to SRSNE. This date may differ from the date the waste left the generator's facility, (particularly if the transaction was brokered by another party), and therefore may not match exactly with your records. EPA expects you to make your best efforts to correlate your records with EPA's documents. This is to prevent double-counting of shipments in EPA's volumetric ranking.
- (2) All gallon volumes are waste-in transactions to SRSNE.
- (3) Please state waste type by chemical name. If the chemical name is not known, please state the trade name and the manufacturer's name.
- (4) e.g., XYZ Chemical Company - generator; ABC Waste Trucking - transporter; EFG Waste Disposal Service - broker.

Mr. Norman Stone
Saunders Associates
137 Canal Street
Nashua, New Hampshire 03060

Dear Norm,

It was a pleasure to meet with you and your people last Wednesday. We have had a chance to review the samples of Chloro-
thene, MEK and Lacquer Thinner and find that we can purchase
the Chlorothene from you at \$0.035 per recovered pound and take
the MEK and Thinner from you at no cost. This is predicated
upon these products being properly segregated and identified
with no cross contamination. If there is cross contamination they
are then worthless and would have to be disposed of by incinera-
tion at a cost of \$8.50 per drum, including transportation.

We will dispose of your other waste solvent mixtures at a
cost of \$8.50 per drum, including transportation.

We can also dispose of your waste acids for you. We are
not certain as to the individual costs as we have not had the
opportunity to evaluate samples, however we will quote as follows
for the first shipment reserving the right to change our pricing
if the actual differs greatly from the rough composition given to
me.

H ₂ SO ₄ - Al	- \$14.00 Per Drum
HNO ₃ - CR	- \$22.00 Per Drum
FeCl ₂ - 42° Be	- \$19.00 Per Drum

We currently are operating a legal incinerator licensed by
the State of Connecticut. All of your solvent sludges would be
disposed of by incineration.

The acids picked up for disposal will also be processed and
disposed of according to the laws of Connecticut.

Saunders Associates

MESSAGE:

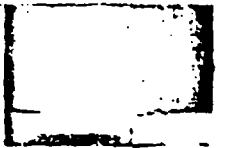

Re memo to [unclear] 12/1/74

P.O. 12/1/74 Sanders Ops. 5000 for SRS
26th to Dept. Env. Waste. The [unclear]
[unclear] with a collection of [unclear] which I do
not want on the plant. Presently the procedure
calls for SRS to pick the material for Env. Waste
& hold on NE Plant until picked up by Env. Waste.

Due to the problems that can develop if by accident
these drums are misrouted or [unclear] material why
are not delivered directly to Env. Waste by their truck
& common carrier? The [unclear] solution is to have our
truck deliver the drums to Env. Waste which is not always
possible.

January 26, 1976

Mr. Norman Stone
Saunders Associates
137 Canal Street
Nashua, NewHampshire 03060

Dear Norm,

It was a pleasure to meet with you and your people last Wednesday. We have had a chance to review the samples of Chloro-
thene, MEK and Lacquer Thinner and find that we can purchase
the Chlorothene from you at \$0.035 per recovered pound and take
the MEK and Thinner from you at no cost. This is predicated
upon these products being properly segregated and identified
with no cross contamination. If there is cross contamination they
are then worthless and would have to be disposed of by incinera-
tion at a cost of \$8.50 per drum, including transportation.

We will dispose of your other waste solvent mixtures at a
cost of \$8.50 per drum, including transportation.

We can also dispose of your waste acids for you. We are
not certain as to the individual costs as we have not had the
opportunity to evaluate samples, however we will quote as follows
for the first shipment reserving the right to change our pricing
if the actual differs greatly from the rough composition given to
me.

H ₂ SO ₄ - Al	- \$14.00 Per Drum
HNO ₃ - CR	- \$22.00 Per Drum
FeCl ₂ - 42° Be	- \$19.00 Per Drum

We currently are operating a legal incinerator licensed by
the State of Connecticut. All of your solvent sludges would be
disposed of by incineration.

The acids picked up for disposal will also be processed and
disposed of according to the laws of Connecticut.

Saunders Associates
January 26, 1976

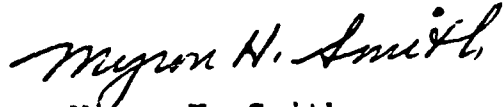

- 2 -

SOLVENTS RECOVERY SERVICE

We would like to assure Saunders Associates that all material picked up for disposal will be processed and disposed of by legal means.

We will assume responsibility for all disposal problems thereby releasing Saunders Associates from all problems in connection with disposal of their wastes.

Very truly yours,

Myron H. Smith
General Manager

Attn: Mr. Ralph E. Lucci

Dear Sir:

In response to your May 3, 1977 request for a quotation on waste solvent and acids from your Nashua and Manchester plants, we offer the following:

Chlorothene V G	Credit to Sanders of \$.035/recovered pound
Penstrip	Disposal Charge - \$17.00/drum
Ferric Chloride Acid	" " - 23.00/drum
Hydrochloric Acid	" " - 23.00/drum
Nitric Acid	" " - 26.00/drum
Chromic Acid	" " - 26.00/drum
Other Oils & Solvents	" " - 9.50/drum

The above prices include transportation at our convenience. Drums without proper identification and labels cannot be picked up under current government regulations.

Please let us know if there are any questions on our quotation. We look forward to continuing to service your facilities.

Very truly yours,

M. H. Smith

Mr. Norman Stone
Sanders Associates, Inc.
P.O. Box 511
Nashua, N.H. 03060

Dear Norman:

Regarding your request to send in 55 drums of unidentified chlorinated solvents for disposal we will be able to handle the drums under the following conditions:

1. The normal chlorinated solvent disposal fee of \$9.50/drum will apply.
2. An additional fee of \$45/drum covering handling and analysis will be charged.
- * 3. Any #2 and #3 drum charges will also apply.
4. In the event analysis indicates drums have to be disposed of by other than normal means SRSNE reserves the right to charge Sanders accordingly on an after the fact basis.
5. In the event analysis indicates any of the drums are such that SRSNE can not properly dispose of the drums SRSNE reserves the right to return the drums to Sanders, charging Sanders for analysis, handling, and return transportation.

Very truly yours,

Edward F. Borucki
Sales Representative
