Notes:

- 1) The transaction date refers to the date the waste was delivered to SRSNE. This date may differ from the date the waste left the generator's facility, (particularly if the transaction was brokered by another party), and therefore may not match exactly with your records. EPA expects you to make your best efforts to correlate your records with EPA's documents. This is to prevent double-counting of shipments in EPA's volumetric ranking.
- 2) All gallon volumes are waste-in transactions to SRSNE.
- 3) Please state waste type by chemical name. If the chemical name is not known, please state the trade name and the manufacturer's name.
- 4) e.g., XYZ Chemical Company - generator; ABC Waste Trucking - transporter; EFG Waste Disposal Service - broker.
