Ms. Marilyn K. Goldberg
U. S. Environmental Protection Agency
P.O. Box 221470
Chantilly, VA 22022

Dear Ms. Goldberg:

We are one of the de minimis parties to the Solvents Recovery Service of New England Superfund Site.

Enclosed are transactional review forms that differentiate our shipments to SRSNE to distinguish between hazardous and non-hazardous material shipped there.

Fortunately, our record-keeping is in good order covering the period during which material was shipped there by CM Labs, our handler. The non-hazardous material was manifested and received as non-hazardous, and we would request the EPA use only our hazardous material in determining volumetric ranking.

In addition, we found two shipments dated February 15, 1989 and June 20, 1989 that were not included on your list. Copies of the documents supporting these shipments are included for your records.

Sincerely yours,

Michael D. Coughlin
President
