Mr. John M. Carlson

60 Westview Street  
Lexington, MA 02173

Dear Mr. Carlson:

This letter is submitted to acknowledge the expiration of TDD #01-9210-33D, PCS #4137. The TDD amendment was issued by you at the request of On-Scene Coordinator (OSC) Paul Groulx to provide Technical Assistance Team (TAT) support in investigating off-site migration of landfill gasses at the Rose Hill Regional Landfill site located in South Kingstown, Rhode Island.

The TDD requested TAT to prepare a report containing the scope of work for the Alternative Remedial Contracts Strategy (ARCS) contractor, Metcalf & Eddy, Inc., to design a gas migration abatement system at the Rose Hill Regional Landfill site. Under this TDD, TAT prepared a draft report which was submitted to you and OSC Groulx on December 29, 1992. The final report was submitted to you and OSC Groulx on January 6, 1993, when EPA comments were received.

This completes all elements outlined in this TDD amendment.

If you have any questions, please contact us at (617) 229-6430.

Sincerely

ROY F. WESTON, INC.
