

**Invitation to the U.S. Environmental Protection Agency's
Pohatcong Valley Groundwater Contamination Superfund Site
Water Line Installation Public Information Sessions**

DATE: Monday, July 31, 2017
TIME: 2pm – 4pm or 6pm – 8pm
PLACE: Greenwich Township Municipal Building
321 Greenwich Street, Stewartsville, NJ 08886

OR

DATE: Wednesday, August 2, 2017
TIME: 2pm – 4pm or 6pm – 8pm
PLACE: Franklin Township Municipal Building
2093 Rt. 57, Broadway, NJ 08808

The U.S. Environmental Protection Agency (EPA) will be holding two (2) informal public information sessions on the dates and at the locations listed above. The sessions will be about EPA's plans to install water supply mains and connections in portions of Franklin and Greenwich Townships for properties threatened or impacted by groundwater contamination related to the Pohatcong Valley Groundwater Contamination Superfund Site (Site). There will be no formal presentation – just an opportunity to drop by any time between the hours listed above to ask questions about the plan to construct water mains and service lines associated with the Site's remedial activities.

Please feel free to stop by either date and at any time within the hours listed above.

EPA, Rio Tinto and their respective contractors will be available to discuss the activities associated with the installation of the water mains such as access to your property, constructability assessments, estimated construction schedule, and property restoration.

For further information, please call Pat Seppi, EPA's Community Liaison, at (646) 369-0068 or by email at seppi.pat@epa.gov. Additional information is available on the Pohatcong Site website: <https://www.epa.gov/superfund/pohatcong-valley-groundwater>
