Re: Eastern Diversified Metals Site,
Hometown, Schuylkill County, Pennsylvania

Dear Sir/Madam:

On Thursday, February 9, 1989, the U.S. Environmental Protection Agency ("EPA") will meet with the potentially responsible parties ("PRPs") in connection with the Eastern Diversified Metals site ("Site"). The meeting will begin at 10:00 a.m. in the Federal Building, Room 3306-3310, 6th and Arch Streets, Philadelphia, Pennsylvania.

As you know, EPA previously sent your company an information request letter under section 104(e) and/or a notice letter under section 106 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 ("CERCLA" or "SUPERFUND"), as amended.

In April 1987, EPA invited PRPs to an organizational meeting in Philadelphia. Since that time, two PRPs: Theodore Sall, Inc., the site owner/operator, and AT&T Nassau Metals Corporation, a generator, have signed an Administrative Order by Consent with EPA. Under the Administrative Order by Consent, the above-mentioned PRPs are performing the Remedial Investigation/Feasibility Study ("RI/FS") with EPA oversight.

At the February 9, 1989 meeting, EPA will provide an update on the status of work being performed at the site. In addition, EPA will provide a better understanding of past and future response costs at the site. Theodore Sall, Inc. and AT&T Nassau Metals Corporation will then discuss their response costs. EPA strongly encourages PRPs to attend this important meeting.

AR202141

If you have any questions regarding the response costs incurred by two of the potentially responsible parties, please phone either:
