

Deletion of a portion of a site from the NPL does not itself create, alter, or revoke any individual's rights or obligations. Deletion of a portion of a site from the NPL does not in any way alter EPA's right to take enforcement actions, as appropriate. The NPL is designed primarily for informational purposes and to assist EPA management. Section 300.425(e)(3) of the NCP states that the deletion of a site or a portion of a site from the NPL does not preclude eligibility for future response actions, should future conditions warrant such actions.

IV. Basis for Partial Site Deletion

The EPA placed copies of a Site-Specific Justification for the Partial Deletion from the NPL of Operable Unit 1—Landfill Cap Area of the Douglas Road/Uniroyal, Inc. Landfill Superfund Site and other documents supporting the proposed partial deletion in the deletion docket. The material provides explanation of EPA's rationale for the partial deletion and demonstrates how OU1—Landfill Cap Area of the Douglas Road Site meets the NPL deletion criteria. This information is made available for public inspection in the docket identified above.

40 CFR Part 300

[EPA–HQ–SFUND–1987–0002; FRL–10010–08–Region 3]

National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List: Deletion of the First Piedmont Rock Quarry (Route 719) Superfund Site

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; notice of intent.

SUMMARY: The Environmental Protection Agency (EPA) Region III is issuing a Notice of Intent to Delete the First Piedmont Rock Quarry (Route 719) Superfund Site (Site) located in Pittsylvania County, Virginia, from the National Priorities List (NPL) and requests public comments on this proposed action. The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the Commonwealth of Virginia, through the Virginia Department of Environmental Quality (VDEQ), have determined that all appropriate response actions under CERCLA, other than operation and maintenance (O&M), monitoring, and five-year reviews, have been completed. However, this deletion does not preclude future actions under Superfund.

DATES: Comments must be received by July 23, 2020.

ADDRESSES: You may submit comments, identified by Docket ID No. EPA–HQ–SFUND–1987–0002, by any of the following methods:

- *Federal eRulemaking Portal:* <https://www.regulations.gov> (our preferred method). Follow the instructions for submitting comments.
- *Email:* sorto.evelyn@epa.gov. Include Docket ID No. EPA–HQ–SFUND–1987–0002 in the subject line of the message.
- Written comments submitted by mail are temporarily suspended and no hand deliveries will be accepted. We encourage the public to submit comments via <https://www.regulations.gov>.

Instructions: Direct your comments to Docket ID No. EPA–HQ–SFUND–1987–0002. Comments may also be submitted electronically or by following the detailed instructions in the **ADDRESSES** section of the direct final rule located in the rules section of this **Federal Register**.

FOR FURTHER INFORMATION CONTACT:

Technical information: Evelyn Sorto, 215–814–2123, sorto.evelyn@epa.gov.

Legal information: Ami Antoine, 215–814–2497, antoine.ami@epa.gov.

SUPPLEMENTARY INFORMATION: In the “Rules and Regulations” section of this issue of the **Federal Register**, we are publishing a direct final Notice of Deletion of the First Piedmont Rock Quarry (Route 719) Superfund Site without prior Notice of Intent to Delete

because we view this as a noncontroversial revision and anticipate no adverse comment. We have explained our reasons for this deletion in the preamble to the direct final Notice of Deletion, and those reasons are incorporated herein. If we receive no adverse comment(s) on this deletion action, we will not take further action on this Notice of Intent to Delete. If we receive adverse comment(s), we will withdraw the direct final Notice of Deletion, and it will not take effect. We will, as appropriate, address all public comments in a subsequent final Notice of Deletion based on this Notice of Intent to Delete. We will not institute a second comment period on this Notice of Intent to Delete. Any parties interested in commenting must do so at this time.

For additional information, see the direct final Notice of Deletion which is located in the “Rules and Regulations” section of this issue of the **Federal Register**.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 300

[EPA–HQ–SFUND–1999–0013; FRL–10010–38–Region 5]

National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List: Deletion of the Fridley Commons Park Well Field Superfund Site

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; notification of intent.

SUMMARY: The Environmental Protection Agency (EPA) Region 5 is issuing a Notice of Intent to Delete the Fridley Commons Park Well Field Superfund Site (Fridley Well Field Site or Site) located in Fridley, Minnesota, from the National Priorities List (NPL) and

requests public comments on this proposed action. The NPL, promulgated pursuant to Section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the State of Minnesota, through the Minnesota Pollution Control Agency (MPCA), have determined that all appropriate response actions under CERCLA have been completed. However, this deletion does not preclude future actions under Superfund.

DATES: Comments must be received by July 23, 2020.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-SFUND-1999-0013, by one of the following methods:

<https://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>.

Email: Deletions@usepa.onmicrosoft.com.

Written comments submitted by mail are temporarily suspended and no hand deliveries will be accepted. We encourage the public to submit comments via email or at <https://www.regulations.gov>.

Instructions: Direct your comments to Docket ID No. EPA-HQ-SFUND-1999-0013. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <https://www.regulations.gov>, including any personal information provided, unless the comment includes information

claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through <https://www.regulations.gov> or email. The <https://www.regulations.gov> website is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to EPA without going through <https://www.regulations.gov>, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the docket are listed in the <https://www.regulations.gov> index, Docket ID No. EPA-HQ-SFUND-1999-0013. Although listed in the index, some information is not publicly available, *e.g.*, CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available electronically at <https://www.regulations.gov>, Docket ID No. EPA-HQ-1999-0013 and at <https://cumulis.epa.gov/supercpad/SiteProfiles/index.cfm?fuseaction=second.docdata&id=0506449> or you may contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section for additional availability information.

The EPA is temporarily suspending its Docket Center and Regional Records Centers for public visitors to reduce the risk of transmitting COVID-19. In addition, many site information repositories are closed and information in these repositories, including the deletion docket, has not been updated with hardcopy or electronic media. For further information and updates on EPA Docket Center services, please visit us online at <https://www.epa.gov/dockets>.

The EPA continues to carefully and continuously monitor information from the Centers for Disease Control and

Prevention (CDC), local area health departments, and our Federal partners so that we can respond rapidly as conditions change regarding COVID-19.

SUPPLEMENTARY INFORMATION:

Table of Contents

- I. Introduction
- II. NPL Deletion Criteria
- III. Deletion Procedures
- IV. Basis for Site Deletion

I. Introduction

EPA Region 5 announces its intent to delete the Fridley Well Field Site from the NPL and requests public comment on this proposed action. The NPL constitutes Appendix B of 40 CFR part 300, which is the NCP, which EPA promulgated pursuant to Section 105 of CERCLA of 1980, as amended. EPA maintains the NPL as the list of sites that appear to present a significant risk to public health, welfare, or the environment. Sites on the NPL may be the subject of remedial actions financed by the Hazardous Substance Superfund (Fund). As described in 40 CFR 300.425(e)(3) of the NCP, sites deleted from the NPL remain eligible for Fund-financed remedial actions if future conditions warrant such actions.

EPA will accept comments on the proposal to delete this site for thirty (30) days after publication of this document in the **Federal Register**.

Section II of this document explains the criteria for deleting sites from the NPL. Section III of this document discusses the procedures that EPA is using for this action. Section IV of this document discusses where to access and review information that demonstrates how the deletion criteria have been met at the Fridley Well Field Site.

II. NPL Deletion Criteria

The NCP establishes the criteria that EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425(e), sites may be deleted from the NPL where no further response is appropriate. In making such a determination pursuant to 40 CFR 300.425(e), EPA will consider, in consultation with the State, whether any of the following criteria have been met:

- i. Responsible parties or other persons have implemented all appropriate response actions required;
- ii. All appropriate Fund-financed response under CERCLA has been implemented, and no further response

action by responsible parties is appropriate; or

iii. The remedial investigation has shown that the release poses no significant threat to public health or the environment and, therefore, the taking of remedial measures is not appropriate.

Pursuant to CERCLA Section 121(c) and the NCP, EPA may initiate further action to ensure continued protectiveness at a deleted site if new information becomes available that indicates it is appropriate. Whenever there is a significant release from a site deleted from the NPL, the deleted site may be restored to the NPL without application of the hazard ranking system.

III. Deletion Procedures

The following procedures apply to deletion of the Fridley Well Field Site:

(1) EPA consulted with the State of Minnesota prior to developing this Notice of Intent to Delete.

(2) EPA has provided the State thirty (30) working days for review of this notice prior to publication of it today.

(3) In accordance with the criteria discussed above, EPA has determined that no further response is appropriate.

(4) The State of Minnesota, through the MPCA, has concurred with deletion of the Fridley Well Field Site from the NPL.

(5) Concurrently with the publication of this Notice of Intent to Delete in the **Federal Register**, an announcement of the availability of the Notice of Intent to Delete is being published in a major local newspaper, the Blaine/Spring Lake

Park/Columbia Heights/Fridley Life. The newspaper notice announces the 30-day public comment period concerning the Notice of Intent to Delete the Fridley Well Field Site from the NPL.

(6) EPA placed copies of documents supporting the proposed deletion in the deletion docket and made these items available for public inspection and copying at <https://www.regulations.gov>, Docket ID No. EPA-HQ-SFUND-1999-0013 and at <https://cumulis.epa.gov/supercpad/SiteProfiles/index.cfm?fuseaction=second.docdata&id=0506449>.

If comments are received within the 30-day public comment period on this document, EPA will evaluate and respond appropriately to the comments before making a final decision to delete. If necessary, EPA will prepare a Responsiveness Summary to address any significant public comments received. After the public comment period, if EPA determines it is still appropriate to delete the Site from the NPL, the EPA will publish a final Notice of Deletion in the **Federal Register**. Public notices, public submissions, and copies of the Responsiveness Summary, if prepared, will be made available to interested parties and in the docket listed above.

Deletion of a site from the NPL does not itself create, alter, or revoke any individual's rights or obligations. Deletion of a site from the NPL does not in any way alter EPA's right to take enforcement actions, as appropriate. The NPL is designed primarily for

informational purposes and to assist EPA management. Section 300.425(e)(3) of the NCP states that the deletion of a site from the NPL does not preclude eligibility for future response actions, should future conditions warrant such actions.

IV. Basis for Site Deletion

The EPA placed copies of EPA's Final Close Out Report for the Site and other documents supporting the proposed deletion in the deletion docket. The material provides explanation of EPA's rationale for the deletion and demonstrates how the Fridley Well Field Site meets the deletion criteria. This information is made available for public inspection in the docket identified above.

List of Subjects in 40 CFR Part 300:

Environmental protection, Air pollution control, Chemicals, Hazardous waste, Hazardous substances, Intergovernmental relations, Penalties, Reporting and recordkeeping requirements, Superfund, Water pollution control, Water supply.
