RE: POND SEDIMENT SAMPLING  
YEOMAN CREEK AND EDWARDS' FIELD LANDFILLS RI/FS

Dear Mr. Boice:

This letter confirms our telephone conversation of December 14, 1992, regarding the pond sediment sampling scheduled to be completed on December 20, 1992 for the Yeoman Creek and Edwards' Field Landfills RI/FS. Based on a review of our records, it appears that an error was made in including the item labelled "Pond Sediment Sampling Not Conducted 12/91" on the RI/FS schedule. Golder Associates had sent a letter to U.S. EPA dated June 25, 1992, which provided an explanation for the relocation of a stream sediment sample point in Yeoman Creek upstream of the Yeoman Creek Landfill. U.S. EPA responded to Golder Associates in a letter dated July 20, 1992. The July 20, 1992 letter gave approval for the relocation of this stream sediment sample point.

Additional sediment sampling other than provided in the RI/FS Work Plan was not discussed in either letter. Therefore, Golder Associates was in error when the item was added to the RI/FS schedule. We apologize for any confusion this may have created.

If you should have any questions, please contact me.

Sincerely,

GOLDER ASSOCIATES INC.

Ali A. Hashimi
