Mr. Robert Dreher, Acting Assistant Attorney General
Environmental and Natural Resources Division
U. S. Department of Justice
P.O. Box 7611
Washington DC 20044-7611

RE: In re: Lyondell Chemical Company, Et.al. D.J. Ref. 90-5-2-1-2132/3

Dear Mr. Dreher, Mr. Pierre G. Armand and other Assistant U. S. Attorneys

I am writing to you today regarding the above referenced matter on behalf of the Kalamazoo River Protection Association, (KRPA) a Michigan non-profit environmental organization formed in June of 1978. Our major objective and mission was and continues today is to address the PCB contamination issue in the Kalamazoo River and other ecological and important natural resources issues. With over 100 dues paying members and a substantial mailing list, the KRPA has been at the forefront of efforts to remediate PCB problems. For example, it was the KRPA study, conducted in 1982 with a small grant from Michigan's Toxic Substance Control Commission that first identified the extend, over 250 pounds of PCBs in approximately 4 million cubic yards of river sediments, of the contamination within the watershed. Over the last 32 years we have represented the interest of 1,000's of dues paying members, many of whom are property owners along the river.

After attending and/or sponsoring over 500 meetings over the last 30 plus years, I can assure you that we have a solid factual background regarding the issues of the Allied Paper/Kalamazoo River /Portage Creek Superfund site.

I attended the public meeting held by the US EPA and US Department of Justice in Kalamazoo held on April 15, 2010. These comments are in addition to those I provided during the public hearing portion of the meeting.

I have reviewed the Settlement Agreement (SA) among the Debtors and other supporting documents and strongly support its timely approval by the Manhattan Bankruptcy Court. The SA provides a substantial amount of money that can be used

immediately to expedite a final Remedial Investigation /Feasibility Study (RI/FS) at Operable Unit One, the former Allied Paper "Landfill Facility". Of even more importance is the funding of \$53.6 million to move forward with long overdue remediation downstream of the City of Kalamazoo.

Obviously we would have preferred much larger settlement allocation. I recommend that the US Attorney General's office audit and examine closely the records of Lyondell Chemical Co., Inc. and its affiliate subsidiary Millennium Holdings, LLC to determine if the "books were cooked" or that other assets not presently identified by the Debtors have not been improperly transferred to other entities over the last several years.

We are supporting the agreement now in the belief that by doing so it will not be jeopardized by more delay. It is not clear at present, whether or not a timely purchase proposal by Reliance Industries Ltd. for Lyondell would provide more funds for cleanup activities. Having said that, it is important to note that given the expenditures, approximately 80 million dollars, by the Potential Responsible Parties (PRPs) over the last 25 years we have a long way to go. Clearly to have available \$103 million dollars at present values dollars will make a big difference in ongoing remediation efforts.

Total remediation / cleanup cost are estimated at approximately 1.4 billion dollars. Today, only about 4 percent (400,000 cubic yards) of the PCBs in Portage Creek and the Kalamazoo River sediments totally in excess of 4,000,000 cubic yards have been removed. The remaining 3,600,000 cubic yards are located in Allegan County downstream of the City of Kalamazoo. It's my belief based on my investigations that the two largest contributors of PCBs to the Kalamazoo River are the former Allied Paper Co, Inc. and Georgia Pacific Corp. The Weyerhaeuser Corp. is the other PRP at the site.

Loosing a PRP with the potential for more contributions should the company become viable and "willing to pay" at an accelerated pace would be preferred to the current plan. However, given the totality of the circumstances the proposed settlement between the Parties is the best solution.

For your information, the City of Kalamazoo and Kalamazoo County elected officials and administrators, along with a local neighborhood group called the Kalamazoo River Cleanup Coalition continue to place the former Allied Paper Site at the top of the cleanup priority, despite the fact that levels of PCBs from the Portage Creek site entering the Kalamazoo River are insignificant and at levels of non-detect. Unfortunately, that political activity has diverted the attention needed to remediate downstream areas of the river where the imminent threat to the environment and public health continues to be, for the most part unabated.

As I understand it, The Comprehensive Environmental, Response, Compensation Liability Act (CERCLA) provides for Joint and Several Liability for any remaining PRP's. Clearly Georgia Pacific LLC and Weyerhaeuser claim that they should not be held accountable for the remaining cost of the Kalamazoo River Cleanup is absurd. If

this is an unresolved issue, it should be resolved prior to the court's order approving the settlement.

Please keep me informed by phone or email as to ongoing efforts and results of the proposed settlement at your earliest convenience.

Sincerely yours,

Dayle Harrison, KRPA President

RE: Comments on proposed Remedial Actions, (Preferred Alternatives) for the Allied Paper/Portage Creek/Kalamazoo River Superfund site relating to Operable Unit Number 1 commonly known as the Bryant Mill Pond Site

Dear Mr. Berkhoff,

Please include these comments along with others, see below, to the US EPA National Peer Review Board regarding the above matter. The Kalamazoo River Protection Association (KRPA) with over 100 dues paying members and a mailing list of over 500 appreciates this opportunity to comment. Before getting into our comments and recommendations relating to the preferred remedies, I'd like to share some KRPA history.

The KRPA was incorporated in June of 1978. It was the KRPA study, PCBs in Kalamazoo River Sediments and Fish, that we conducted, with assistance from Dr. Irwin Brink of Hope College in 1982 that first identified the approximate volume of Polychlorinated Byphenols (PCBs) in the Kalamazoo River from Kalamazoo downstream to Lake Michigan. That number was 280,000 pounds of PCBs in some three to four million cubic yards of river sediments and paper waste. Also, as part of our review, the KRPA noted that levels of PCBS and Fish and other wildlife were not decreasing significantly despite Federal and State bans on points source discharges in the late 1970's.

We made extensive comments on the CERLA amendments that recognized the importance of protecting human health from fish contaminated with PCBs and Wildlife reproductive failures. We have daily advocated for the complete cleanup of the Kalamazoo River Site since the late 1970's. We were US EPA Technical Assistance Grant recipient from US EPA from 1987 through 1993. We completed a 20 minute Documentary entitled, The Toxic Legacy of Michigan Kalamazoo River- Cleanup or Cover-up. US EPA has copies of that film and I ask that a copy of that film be made available to the National Remedy Review Board, as well as KRPA comments relating to

other Proposed Cleanup Options Remedial Investigations/Feasibility Studies KRPA provided for the Willow Blvd. Site, the A-site-, the King Hwy. Site, the 12th street landfill, and the MDNR Plainwell Dam.

I have reviewed the Current RI/FS as well as previous RI/FS technical documents for Operable Unit One. There are some differences certainly. We are of the opinion that Alternative 2B Consolidation, Cap and isolation of the PCBs at this site will for this site will adequately protect human health and the environment. Further, the KRPA does not believe that a slurry wall and collection systems is needed. I do believe that it would be worthwhile to leave the existing sheet pile in place and provide additional buffers East of the wall, perhaps including an additional sheet pile wall. This would involve re-routing Portage Creek further to the East. Perhaps, an analysis of a new Culvert located further East of the current location on Cork Street should be considered. It is the KRPA's general recommendation that remedial actions at the Bryant Mill Pond site, Operable Unit number one need be undertaken that are similar to those for the Record of Decisions at the Willow Blvd/A Site and the King Hwy. Site.

With the Lyondell Chemical Bankruptcy, insufficient funds are available for complete removal. Any possible remaining funds after remedial action under option Alternate 2B Today only about 7-10 percent of the total 80 mile site have been remediated. should be directed to cleanup efforts downstream. Available funds should be used where river sediments contaminated with PCBs are affecting human health and wildlife. The proposed Alternative 2B should be more than adequate and is the KRPA's choice.

There has been considerable public debate about "alleged threats to the City of Kalamazoo's Water Supply and that PCB's are or might someday migrate to the City Well Supply at unsafe levels. As you may know, PCBs waste was generated at the OU1 back in the 1950's. A substantial amount of paper waste, upwards to 25 feet or more, is located below the existing PCB contaminated waste. Those paper residual represent an established buffer between the PCB waste and any underground aquifer(s). Further, the remedy of Consolidation followed by an engineered composite land fill cap as described in Section 4 Potential Remedial Alternative and Capping in Place should be more than sufficient to contain PCBs at this site.

Further , the Arcadis report, entitled Supplemental Groundwater Investigation Report completed in October 2009 provides clear evidence and documents in sufficient detail the Fact that the Allied OU 1 site does not contribute to any ground water flow pathway for PCBs and inorganics to the City Well fields. In fact, groundwater flows are towards Portage Creek.

I have attended over 500 meetings, several hundred involving US EPA and Michigan Department of Natural Resources and Environment (MDNRE) formerly MDEQ staff regarding ongoing efforts relating to PCBs in the Kalamazoo River and Portage Creek since 1978. I believe that many of the comments and opinions made by

various organizations and the City of Kalamazoo relating to OU 1 in the Kalamazoo Area at public meetings are politically motivated.

As I understand it, having, the site was placed on the National Priorities List (NPL) in August of 1990 because of human health risks of eating contaminated fish containing unsafe levels of PCBs and to reduce the adverse impacts on wildlife and their habitat. If we are to achieve those goal, these areas downstream need to be prioritized.

Thank you for this opportunity to comment. Should you or members of the National Remedy Review Board wish to call me regarding this matter, please do so. My phone is 616-218-4444.

Sincerely yours,

Dayle L. Harrison, KRPA president

11. The Settling Federal Agencies may, in their sole discretion, direct any portion of any cash distribution or the proceeds of any non-cash distribution received for a site pursuant to this Settlement Agreement into a site-specific special account established to fund response, assessment, and/or restoration actions at the site in the event that future work is anticipated at the site.

12. X. INSURANCE PROCEEDS

15. To the extent that at any time after the Effective Date, the Debtors recover insurance proceeds on account of any of the Liquidated Sites in excess of the Debtors' costs of pursuing such insurance proceeds, the Debtors may retain 30% of such excess insurance proceeds on account of the Liquidated Sites and the Debtors shall pay 70% of such excess insurance proceeds on account of the Liquidated Sites to the United States, the Settling California Agencies, the State of Illinois Natural Resource Trustees, and/or the Settling Michigan Agencies, as applicable. The Debtors agree to allocate in writing any excess insurance proceeds on a fair and equitable basis among sites between Liquidated Sites and other sites based upon all of the facts and circumstances including, but not limited to, any defenses asserted by insurers, and with deference to any allocation by a court or in an approved settlement document. In determining the Debtors' cost of pursuing insurance proceeds for Liquidated Sites, the Debtors shall use

the same percentage allocation of costs as is used in the Debtors' allocation of recovery of excess insurance proceeds attributed to Liquidated Sites. To the extent that excess insurance proceeds are allocable to sites other than Liquidated Sites, no payment need be made to the United States, the Settling California Agencies, the State of Illinois Natural Resource Trustees, or the Settling Michigan Agencies from the excess insurance proceeds allocable to sites other than Liquidated Sites. The United States, the Settling California Agencies, the State of Illinois Natural Resource Trustees, and the Settling Michigan Agencies reserve the right to petition the Court for an adjustment of the Debtors' allocation based upon all of the facts and circumstances. The payments required to be made under this Paragraph shall be in addition to the payments required to be made under Paragraphs 4 and 5. However, under no circumstances, may the payments required to be made under this Paragraph, when combined with the consideration received for the Liquidated Sites by the Settling Federal Agencies, the Settling California Agencies, the State of Illinois Natural Resource Trustees, or the Settling Michigan Agencies under Paragraphs 4 and 33 of this Settlement Agreement, exceed the amount of the Allowed General Unsecured Claims for the Liquidated Sites under Paragraph 4. In the event that the excess insurance proceeds sharing requirements of this Paragraph would otherwise result in such an exceedance, the Debtors shall retain the additional amount of excess insurance proceeds necessary to avoid such an exceedance. With respect to any payments received by the United States, the Settling California Agencies, the State of Illinois Natural Resource Trustees, or the Settling Michigan Agencies under this Paragraph, the United States, the Settling California Agencies, the State of Illinois Natural Resource Trustees, and the Settling Michigan Agencies shall credit site accounts for particular Liquidated Sites only in accordance with the Debtors' allocation and payment for the particular Liquidated Site (unless adjusted by the Court), which credit shall reduce the liability of non-settling potentially responsible parties for the particular site by the amount of the credit.

21. Notwithstanding any other provision of this Settlement Agreement, the Debtors shall continue, at their own expense, the operation of any required ongoing environmental activities at the Transferred Real Properties until the Funds and Transferred Real Properties are transferred to the Environmental Custodial Trust in accordance with this Settlement Agreement and the Environmental Custodial Trust Agreement. Upon such transfer, all obligations of the Debtors to perform work pursuant to any outstanding Consent Decree, Unilateral Administrative Order, Agreed Order, Administrative Order on Consent, or permit regarding any of the Transferred Real Properties or Sites shall be deemed fully resolved and satisfied by this Settlement Agreement, and the applicable Debtor(s) shall be removed as a party to such orders, decrees, or permits, provided that the relevant Parties shall execute and file such papers as may be necessary to substitute the Environmental Custodial Trust for the applicable Debtor(s) with respect to any outstanding orders, decrees, or permits regarding any of the Transferred Real Properties. The outstanding orders, decrees, and permits referenced in the preceding sentence are listed in Exhibit D to this Settlement Agreement. Any statutory, stipulated, or other penalties allegedly due from any Debtor as of the date of lodging of this Settlement Agreement, in connection with such orders, decrees, or permits, shall be deemed fully resolved and satisfied by this Settlement Agreement.

22. The Environmental Custodial Trust Trustee shall at all times seek to have the Environmental Custodial Trust treated as a “qualified settlement fund” as that term is defined in Treasury Regulation Section 1.468B-1. For purposes of complying with Section 468B(g)(2) of the Internal Revenue Code, this Settlement Agreement shall constitute a consent decree between the Parties. Approval of the Bankruptcy Court, as a unit of the District Court, shall be sought, and the Bankruptcy Court shall retain continuing jurisdiction over the Environmental Custodial Trust sufficient to satisfy the requirements of Treasury Regulation Section 1.468B-1. The Environmental Custodial Trust Trustee will not elect to have the Environmental Custodial Trust treated as a grantor trust. The Environmental Custodial Trust Trustee shall be the “administrator” of the Environmental Custodial Trust pursuant to Treasury Regulation Section 1.468B-2(k)(3).

XII. TREATMENT OF ADDITIONAL SITES

23. With respect to the Additional Sites, all liabilities and obligations of the Debtors to the Settling Federal Agencies, DTSC, and the LA Regional Board under Sections 106 and 107 of CERCLA, 42 U.S.C. §§ 9606 and 9607, Section 7003 of RCRA, 42 U.S.C. § 6973, and Similar California Laws arising from Prepetition acts, omissions, or conduct of the Debtors or their predecessors, including without limitation the Prepetition generation, transportation, disposal, or release of hazardous wastes or materials or the Prepetition ownership or operation of hazardous waste facilities, shall be treated as follows: the Settling Federal Agencies, DTSC, and the LA Regional Board shall receive no distributions in the Bankruptcy Cases with respect to such liabilities and obligations, but the applicable Debtors shall be required to pay the Settling Federal Agencies, DTSC, or the LA Regional Board, or such other party as

they may designate, such amounts as are provided for in Paragraphs 24 and 25, and no additional amounts, unless otherwise provided in a future settlement agreement or consent decree.

24. If and when the Settling Federal Agencies, DTSC, or the LA Regional Board undertakes enforcement activities in the ordinary course with respect to an Additional Site, the United States, DTSC, or the LA Regional Board may seek a determination of the liability, if any, of any Debtor identified as a potentially responsible party with respect to that Additional Site and may seek to obtain a judgment of liability of the Debtor or enter into a settlement with the Debtor with regard to the Additional Site in the manner and before the administrative or judicial tribunal in which the Settling Federal Agencies' claims, DTSC's claims, or the LA Regional Board's claims would have been resolved or adjudicated if the Bankruptcy Cases had never been commenced. However, the Settling Federal Agencies, DTSC, and the LA Regional Board shall not issue or cause to be issued any unilateral order or seek any injunction against the Debtors under Section 106 of CERCLA, 42 U.S.C. § 9606, Section 7003 of RCRA, 42 U.S.C. § 6973, or Similar California Laws arising from the Prepetition acts, omissions, or conduct of the Debtors or their predecessors with respect to an Additional Site, except as provided in Paragraph 29. The Debtors and the Settling Federal Agencies, DTSC, and/or the LA Regional Board will attempt to settle each liability or obligation asserted by the Settling Federal Agencies, DTSC, or the LA Regional Board against any Debtor relating to an Additional Site on a basis that is fair and equitable under the circumstances, including consideration of (i) settlement proposals made to other potentially responsible parties who are similar to the Debtor in the nature of their involvement with the site, (ii) the fact of the Debtor's bankruptcy, and (iii) the circumstances of this Settlement Agreement; but nothing in this sentence shall create an obligation of the Settling Federal Agencies, DTSC, or the LA Regional Board that is subject to judicial review. The aforesaid resolution or adjudication of liability may occur notwithstanding the terms of the Plan of Reorganization, the order confirming the Plan of Reorganization, or the terms of any order entered to effectuate the discharge received by the Debtors. In any action or proceeding with respect to an Additional

Site, the Debtors, the Settling Federal Agencies, DTSC, and the LA Regional Board reserve any and all rights, claims, and defenses they would have been entitled to assert had the claim been adjudicated in the ordinary course or during the course of the Bankruptcy Cases, including, without limitation, any argument that joint and several liability should or should not be imposed upon any Debtor identified as a potentially responsible party with respect to that Additional Site, but not including any right to have the claim estimated. Nothing herein shall be construed to limit the rights of the Debtors, the Settling Federal Agencies, DTSC, or the LA Regional Board to assert any and all rights, claims, and defenses they may have in actions or proceedings involving other parties with respect to Additional Sites.

25. In the event any liability is liquidated pursuant to Paragraph 24 by settlement or judgment to a determined amount (the "Determined Amount"), the Debtor(s) with which such settlement is made or against which such judgment is entered will satisfy such liability within thirty days after the later of the effective date of the Plan of Reorganization or the date on which the settlement or judgment is final and effective (the "Settlement/Judgment Date") as follows: (a) for DTSC Additional NPL Sites and U.S. Additional CERCLIS/NPL Sites, by providing DTSC or the respective Settling Federal Agency the "Distribution Amount" to the extent that any funds are available under the Plan of Reorganization, including any disputed claim reserve, to make distributions to holders of Allowed General Unsecured Claims against the Debtor(s) in question; and (b) for DTSC Additional Other Sites, LA Regional Board Additional Sites, U.S. Additional Other Sites, and Reserved Additional Sites, by providing DTSC, the LA Regional Board, or the respective Settling Federal Agency the Distribution Amount. The Distribution Amount shall be the value of the consideration which would have been distributed under the Plan of Reorganization to the holder of such Claim if the Determined Amount had been an Allowed General Unsecured Claim in such amount under the Plan of Reorganization. Except as provided in Paragraph 26, the Distribution Amount shall be paid in the same form (*e.g.*, cash, notes, etc.) as was distributed under the Plan of Reorganization. The Settling Federal Agencies, DTSC, and the LA Regional Board shall have no

recourse under the provisions of this Paragraph against a Schedule III Debtor (as that term is defined in the Plan of Reorganization) to the extent that the Schedule III Debtor has been liquidated pursuant to the Bankruptcy Code or has no assets with which to pay the Distribution Amount.

26. In the event that the Plan of Reorganization provides that Allowed General Unsecured Claims will receive consideration other than cash, the Debtors may, in their sole discretion, provide the non-cash portion of the Distribution Amount to the Settling Federal Agencies, DTSC, or the LA Regional Board in cash that has an aggregate value as of the Settlement/Judgment Date that is equivalent to the non-cash portion of the Distribution Amount. For purposes of determining the value of the consideration paid to the holders of Allowed General Unsecured Claims at the time of distribution(s), notes shall have a value equal to their face value and equity securities shall have a value equal to the weighted average of the reported regular way sales prices of all transactions for the security on the New York Stock Exchange on the date(s) of distribution (or the first date thereafter on which the security trades), or if the security is not listed or admitted to trade on such exchange, on the principal national securities exchange on which the security is listed or admitted to trading or, if not listed or admitted to trading on any national securities exchange, the weighted average of the reported bid prices for the security on all transactions on the National Association of Securities Dealers Automated Quotations National Market System or, if the security is not listed or admitted to trading on any national securities exchange or quoted on such National Market System, the weighted average of the reported sales prices for such security on all transactions in the over-the-counter market in the United States as furnished by any New York Stock Exchange member firm selected by the Debtors and the relevant claimant for that purpose. For purposes of determining the number of shares of securities that have the value of the Distribution Amount on the Settlement/Judgment Date, the fair market value per share of securities on the Settlement/Judgment Date shall be determined as set forth in the immediately preceding sentence. The terms of this Paragraph and Paragraphs 23-25 of this Settlement Agreement shall apply to, be binding on, and inure to the benefit of any successor or assign of the Debtors

to the extent that and only to the extent that the alleged liability of the successor or assign for an Additional Site is based solely on its status as and in its capacity of a successor or assign of the Debtors.

27. Claims of or obligations to the Settling Federal Agencies, DTSC, or the LA Regional Board resulting from the Debtors' Postpetition conduct at Additional Sites that would give rise to liability under Sections 106 and 107 of CERCLA, 42 U.S.C. §§ 9606 and 9607, Section 7003 of RCRA, 42 U.S.C. § 6973, and Similar California Laws shall not be discharged under Section 1141 of the Bankruptcy Code by the confirmation of the Plan of Reorganization, nor shall such Claims or obligations be impaired or affected in any way by the Bankruptcy Cases or confirmation of the Plan of Reorganization. As used in the preceding sentence, the phrase "Postpetition conduct" does not include continuing releases related to conduct occurring before the date of lodging of this Settlement Agreement.

28. The Settling Federal Agencies, DTSC, and the LA Regional Board may pursue enforcement actions or proceedings under applicable law with respect to their Claims against and obligations of the Debtors under Paragraph 27 in the manner, and by the administrative or judicial tribunals, in which the Settling Federal Agencies, DTSC, or the LA Regional Board could have pursued enforcement actions or proceedings if the Bankruptcy Cases had never been commenced. The Debtors reserve the right to assert any and all defenses and counterclaims available to them under applicable law with respect to any such Claims and obligations, except for any alleged defense of discharge of liabilities provided under the Bankruptcy Code, any plan of reorganization, or order of confirmation. The Settling Federal Agencies, DTSC, and the LA Regional Board reserve all of their rights with respect to any defenses or counterclaims asserted by the Debtors under this Paragraph.

29. Notwithstanding any other provision of this Settlement Agreement, neither this Settlement Agreement, the confirmation of the Plan of Reorganization, nor the Bankruptcy Cases shall operate to discharge, impair, or release any Debtor from its obligation to comply with any RCRA Order issued with respect to a Reserved Additional Site. Moreover, neither this Settlement Agreement, the confirmation of

the Plan of Reorganization, nor the Bankruptcy Cases shall act to enjoin, restrain, or prevent the United States from taking any action to enforce Section 7003 of RCRA, 42 U.S.C. § 6973, or state law similar to RCRA, against a Debtor with respect to any Reserved Additional Site, including but not limited to any action to issue, seek, or enforce a RCRA Order. The United States may pursue such enforcement action in the manner, and by the administrative or judicial tribunals, in which it could have pursued such action if the Bankruptcy Cases had never been commenced.

XIII. TREATMENT OF ALLOWED CLAIMS

30. All Allowed General Unsecured Claims under or pursuant to the terms of this Settlement Agreement, including without limitation any such Claims as may eventually be allowed pursuant to Paragraphs 24-26 (Treatment of Prepetition Liabilities for Additional Sites), regardless of the holder of such Claims, (i) will receive the same treatment under the Plan of Reorganization, without discrimination, as other Allowed General Unsecured Claims with all attendant rights provided by the Bankruptcy Code and other applicable law, and (ii) will not be entitled to any priority in distribution (although the provisions of Section X (Insurance Proceeds) shall apply in the event of excess insurance proceeds, and the provisions of Paragraph 33 shall apply with respect to setoff). In no event shall the general unsecured Claims allowed or to be allowed pursuant to this Settlement Agreement be subordinated to any other Allowed General Unsecured Claims pursuant to any provision of the Bankruptcy Code or other applicable law that authorizes or provides for subordination of allowed Claims, including without limitation Sections 105, 510, and 726(a)(4) of the Bankruptcy Code.

31. The Claims allowed in this Settlement Agreement do not constitute, nor shall they be construed as, forfeitures, fines, or penalties (or payments in lieu thereof), and nothing herein is intended, or shall be construed, as an admission by the Debtors of any facts or any violation of law. Notwithstanding the foregoing, the Debtors do agree to comply with all terms of this Settlement Agreement upon the Effective Date.

32. Notwithstanding any other provision of this Settlement Agreement, and except as provided under applicable law, there shall be no restrictions on the ability and right of the Settling Federal Agencies, the Settling California Agencies, the State of Illinois Natural Resource Trustees, or the Settling Michigan Agencies to transfer or sell all or a portion of any securities distributed to them pursuant to the Plan of Reorganization, to sell their right to all or a portion of any distributions under the Plan to one or more third parties, or to transfer or sell to one or more third parties all or a portion of any Allowed General Unsecured Claims pursuant to this Settlement Agreement.

33. The treatment of claims as Allowed General Unsecured Claims under this Settlement Agreement is without prejudice to any right of the United States, the Settling California Agencies, the State of Illinois Natural Resource Trustees, or the Settling Michigan Agencies to set off, against the debts underlying such claims, the following, to the extent otherwise permitted under applicable law: (a) any debts owed by or in connection with the U.S. Customs and Border Protection (an agency within the U.S. Department of Homeland Security) to a particular Debtor or Debtors; and (b) any tax refunds or other tax-related debts owed to a particular Debtor or Debtors (the "Tax Refund Setoff"), as further specified in the remainder of this Paragraph. The Tax Refund Setoff shall not exceed \$10 million in total, and the Debtors reserve the right to dispute, under applicable law, any effort by the United States to utilize the Tax Refund Setoff to recover unpaid portions of any Allowed General Unsecured Claims set forth in Sections V and VII of this Settlement Agreement other than the unpaid portions of the United States' Allowed General Unsecured Claims against Lyondell Chemical Company. If any tax refunds or other tax-related debts become due to a particular Debtor or Debtors, the United States shall not withhold payment of any amount of such tax refunds or other tax-related debts in excess of the \$10 million Tax Refund Setoff cap identified above for purposes of setting off any Allowed General Unsecured Claims of the Settling Federal Agencies. The United States, DTSC, and the LA Regional Board shall not under this Settlement

Agreement, the Plan of Reorganization, or otherwise, exercise any right of setoff with respect to Determined Amounts or Distribution Amounts for Additional Sites.

34. The U.S. Proofs of Claim, the DTSC Proofs of Claim, the State Board Proofs of Claim, the LA Regional Board Proofs of Claim, the State of Illinois Natural Resource Trustees' Proof of Claim, and the Settling Michigan Agencies' Proof of Claim shall be deemed satisfied in full in accordance with the terms of this Settlement Agreement. Moreover, the approval of this Settlement Agreement by the Court, together with the proofs of claim referenced in the preceding sentence, shall be deemed to satisfy any requirement for the Settling Federal Agencies, the Settling California Agencies, the State of Illinois Natural Resource Trustees, and the Settling Michigan Agencies to file in these Bankruptcy Cases any claim, request, or demand for the disbursement of funds as provided herein. No further proof of claim or other request or demand by the Settling Federal Agencies, the Settling California Agencies, the State of Illinois Natural Resource Trustees, or the Settling Michigan Agencies shall be required. Any and all proofs of claim deemed to be filed pursuant to this Paragraph shall also be deemed satisfied in full in accordance with the terms of this Settlement Agreement.

35. The Court order approving this Agreement shall provide that the Objections to the U.S. Proofs of Claim, the DTSC Proofs of Claim, the State Board Proofs of Claim, and the LA Regional Board Proofs of Claim and the United States and the Settling California Agencies' Motion to Withdraw the Reference are withdrawn, with respect to the causes of actions, claims and defenses asserted therein, without costs or attorney's fees to any party.

a. EPA and the States (except for NCDWM and TCEQ) covenant not to file a civil action or to take any administrative or other civil action against the Debtors or the Custodial Trust Parties pursuant to Sections 106 or 107 of CERCLA, 42 U.S.C. §§ 9606 or 9607, and Sections 7002 or 7003 of RCRA, 42 U.S.C. §§ 6972 or 6973, or any similar state laws with respect to each of the Liquidated Sites and Transferred Real Properties.

c. NOAA covenants not to file a civil action or to take any administrative or other civil action against the Debtors or the Custodial Trust Parties pursuant to Section 107 of CERCLA, 42 U.S.C. § 9607, with respect to the Allied Paper/Portage Creek/Kalamazoo River Site, the Allied Paper Mill Transferred Real Property, or the Diamond Alkali/Lower Passaic River Study Area Site. d. NCDWM releases and agrees not to sue or to take administrative action (i) against the Debtors pursuant to Sections 106 or 107 of CERCLA, 42 U.S.C. §§ 9606 or 9607, and Sections 7002 or 7003 of RCRA, 42 U.S.C. §§ 6972 or 6973, or any similar state laws for any liabilities or obligations asserted in NCDWM's proof of claim (Claim No. 4430) with respect to the Charlotte Transferred Real Property, or (ii) against the Custodial Trust Parties pursuant to Sections 106 or 107 of CERCLA, 42 U.S.C. §§ 9606 or 9607, and Sections 7002 or 7003 of RCRA, 42 U.S.C. §§ 6972 or 6973, or any similar state laws with respect to the Charlotte Transferred Real Property.

The foregoing covenants not to sue and/or releases and agreements not to sue shall take effect on the Effective Date.

38. This Settlement Agreement in no way impairs the scope and effect of the Debtors' discharge under Section 1141 of the Bankruptcy Code as to any third parties or as to any Claims that are not addressed by this Settlement Agreement.

39. Without in any way limiting the covenant not to sue (and the reservations thereto) set forth in Paragraph 37, and notwithstanding any other provision of this Settlement Agreement, such covenant not to sue shall also apply to the Debtors' successors and assigns, officers, directors, employees, and trustees, but only to the extent that the alleged liability of the successor or assign, officer, director, employee, or trustee of any Debtor is based solely on its status as and in its capacity as a successor or assign, officer, director, employee, or trustee of any Debtor.

40. The covenants not to sue and/or releases and agreements not to sue contained in Paragraphs 37 and 39 of this Settlement Agreement extend only to the Debtors and the persons described in Paragraphs 37 and 39 above and do not extend to any other person. Nothing in this Settlement Agreement is intended as a covenant not to sue or a release from liability for any person or entity other than the Debtors, the United States, the States, the Custodial Trust Parties, and the persons described in Paragraph 39. The United States, the States, the Custodial Trust Parties, and the Debtors expressly reserve all claims, demands, and causes of action, either judicial or administrative, past, present, or future, in law or equity, which they may have against all other persons, firms, corporations, entities, or predecessors of the Debtors for any matter arising at or relating in any manner to the sites or claims addressed herein.

41. The covenants not to sue and/or releases and agreements not to sue set forth in Paragraph 37 do not pertain to any matters other than those expressly specified therein. The United States and the States expressly reserve, and this Settlement Agreement is without prejudice to, all rights against the Debtors and the persons described in Paragraph 39 with respect to all other matters other than those set forth in Paragraph 37. The United States and the States also specifically reserve, and this Settlement Agreement is without prejudice to, any action based on (i) a failure to meet a requirement of this Settlement Agreement;

(ii) criminal liability; or (iii) matters reserved in Paragraph 8 (Non-Dischargeability/Reservation Regarding Debtor-Owned/Operated Sites). In addition, the United States and the States reserve, and this Settlement Agreement is without prejudice to, all rights against the Debtors, their successors, assigns, officers, directors, employees, and trustees with respect to the Liquidated Sites and Transferred Real Properties for liability for response costs, natural resource damages (including natural resource damage assessment costs), and injunctive relief under CERCLA, RCRA, or state law for acts that occur after the date of lodging of this Settlement Agreement and give rise to liability under CERCLA, RCRA, or state law. As used in the preceding sentence, the phrase “acts that occur after the date of lodging of this Settlement Agreement” does not include continuing releases related to conduct occurring before the date of lodging of this Settlement Agreement, or continued ownership by any Debtor of any of the Transferred Real Properties prior to their transfer to the Environmental Custodial Trust in accordance with this Settlement Agreement and the Environmental Custodial Trust Agreement.

42. Nothing in this Settlement Agreement shall be deemed to limit the authority of the United States or the States to take response action under Section 104 of CERCLA, 42 U.S.C. § 9604, or any other applicable law or regulation, or to alter the applicable legal principles governing judicial review of any action taken by the United States or the States pursuant to such authority. Nothing in this Settlement Agreement shall be deemed to limit the information-gathering authority of the United States or the States under Sections 104 and 122 of CERCLA, 42 U.S.C. §§ 9604 and 9622, or any other applicable federal or state law or regulation, or to excuse the Debtors or the Environmental Custodial Trust Trustee from any disclosure or notification requirements imposed by CERCLA, RCRA, or any other applicable federal or state law or regulation.

43. The Debtors and the Environmental Custodial Trust Trustee hereby covenant not to sue and agree not to assert or pursue any claims or causes of action against the United States and the States with respect to the Liquidated Sites or Transferred Real Properties, and the Debtors covenant not to sue and

agree not to assert claims or causes of action against the Custodial Trust Parties, including, but not limited to (i) any direct or indirect claim for reimbursement from the Hazardous Substances Superfund (established pursuant to the Internal Revenue Code, 26 U.S.C. § 9507) through Sections 106(b)(2), 111, 112, or 113 of CERCLA, 42 U.S.C. §§ 9606(b)(2), 9611, 9612, or 9613, or any other provision of law, or from the California Hazardous Substance Account, the California State Water Cleanup and Abatement Account, or any similar funds or accounts of the States pursuant to any provision of law; (ii) any claim against the United States or the States, including any department, agency, or instrumentality of the United States or the States, under Sections 107 or 113 of CERCLA, 42 U.S.C. §§ 9607 or 9613, related to the Liquidated Sites or Transferred Real Properties; or (iii) any claims arising out of response activities at the Liquidated Sites or the Transferred Real Properties. Such covenant not to sue shall also apply to the United States' and the States' officers, directors, employees, trustees, successors, and assigns. Nothing in this Settlement Agreement shall be deemed to constitute preauthorization of a claim within the meaning of Section 111 of CERCLA, 42 U.S.C. § 9611, or 40 C.F.R. § 300.700(d).

44. Notwithstanding Paragraph 43, nothing in this Settlement Agreement shall affect the validity or enforceability by the Environmental Custodial Trust of the Agreement dated March 12, 1997, among ARCO Chemical Company, Beazer East, Inc., and the United States with respect to the Beaver Valley Transferred Real Property. Furthermore, nothing in this Settlement Agreement shall be interpreted to modify the terms of the Agreement dated March 12, 1997.

XVI. CONTRIBUTION PROTECTION

45. The Parties agree that, and by entering this Settlement Agreement and the Environmental Custodial Trust Agreement, the Court finds, that this settlement constitutes a judicially-approved settlement for purposes of Section 113(f)(2) of CERCLA, 42 U.S.C. § 9613(f)(2), and that the Debtors and the Custodial Trust Parties are entitled, as of the Effective Date, to protection from contribution actions or claims as provided by Section 113(f)(2) of CERCLA, 42 U.S.C. § 9613(f)(2), or as may be otherwise

provided by law, for “matters addressed” in this Settlement Agreement. Subject to the last sentence of this Paragraph, the “matters addressed” in this Settlement Agreement, as that phrase is used in Section 113(f)(2) of CERCLA, 42 U.S.C. § 9613(f)(2), include, without limitation, (i) claims by EPA or potentially responsible parties for response costs at or in connection with each of the Liquidated Sites and Transferred Real Properties, including claims related to releases of hazardous substances from any portion of the Liquidated Sites and Transferred Real Properties and all areas affected by natural migration of such substances from such sites; (ii) claims by DOI or potentially responsible parties for natural resource damages for injury to DOI trust resources (including related natural resource damage assessment costs) at or in connection with each of the Liquidated Sites and Transferred Real Properties for which DOI is providing a covenant not to sue pursuant to Paragraph 37, including claims related to releases of hazardous substances from any portion of the Liquidated Sites and Transferred Real Properties and all areas affected by natural migration of such substances from such sites; and (iii) claims by NOAA or potentially responsible parties for natural resource damages for injury to NOAA trust resources (including related natural resource damage assessment costs) at or in connection with each of the Liquidated Sites and Transferred Real Properties for which NOAA is providing a covenant not to sue pursuant to Paragraph 37, including claims related to releases of hazardous substances from any portion of the Liquidated Sites and Transferred Real Properties and all areas affected by natural migration of such substances from such sites. The “matters addressed” in this Settlement Agreement do not include claims against any of the Debtors for liquidated past response costs incurred prior to the Petition Dates and included in proofs of claim filed in any of the Bankruptcy Cases by potentially responsible parties with respect to any of the Liquidated Sites or Transferred Real Properties.

46. The Debtors each agree that with respect to any suit for contribution brought against any of them after the Effective Date for matters related to this Settlement Agreement, they will notify the United States and the States, as applicable, within fifteen business days of service of the complaint upon them. In

addition, in connection with such suit, the Debtors shall notify the United States and the States, as applicable, within fifteen business days of service or receipt of any Motion for Summary Judgment and within fifteen business days of receipt of any order from a court setting a case for trial (provided, however, that the failure to notify the United States pursuant to this Paragraph shall not in any way affect the protections afforded under Section XV (Covenants Not to Sue, Releases, and Reservation of Rights)).

XVII. FINANCIAL ASSURANCE

47. EPA, the States, and the Debtors shall take all appropriate steps under each financial assurance instrument to release all financial assurance maintained by the Debtors at Liquidated Sites or Transferred Real Properties, as listed in Exhibit E to this Settlement Agreement, within thirty days after the Debtors transfer all funds pursuant to Sections VI and XI of this Settlement Agreement.

XVIII. NOTICES AND SUBMISSIONS

48. Whenever, under the terms of this Settlement Agreement, written notice is required to be given, or a report or other document is required to be sent by one Party to another, it shall be directed to the individuals at the addresses specified below via U.S. certified mail, return receipt requested, unless those individuals or their successors give notice of a change of address to the other Parties in writing. All notices and submissions shall be considered effective upon receipt, unless otherwise provided. Except as otherwise provided in this Settlement Agreement, written notice as specified herein shall constitute complete satisfaction of any written notice requirement in the Settlement Agreement with respect to the Parties.

XIX. JUDICIAL APPROVAL AND OPPORTUNITY FOR PUBLIC COMMENT

49. This Settlement Agreement shall be subject to approval of the Bankruptcy Court, which approval may be granted in the same order approving the Plan of Reorganization or in a separate order. The Debtors shall promptly seek approval of this Settlement Agreement under Bankruptcy Rule 9019 or applicable provisions of the Bankruptcy Code (the “Rule 9019 Motion”).

50. This Settlement Agreement shall be lodged with the Bankruptcy Court as an exhibit to the Rule 9019 Motion, and shall thereafter be subject to a period of public comment following publication of notice of the Settlement Agreement in the *Federal Register*. The Settlement Agreement shall also be subject to public notice and comment under any applicable provision of state law. Any public comment period under state law may run concurrently with the public comment period provided for in the first sentence of this Paragraph, and any public comment period provided for in this Paragraph may run concurrently with any notice period required pursuant to Bankruptcy Rule 2002 or applicable local rule in connection with judicial approval of the Settlement Agreement pursuant to the preceding Paragraph.

51. The United States and any State taking public comment reserve the right to withdraw or withhold their consent to this Settlement Agreement if the public comments regarding it disclose facts or

considerations which indicate that it is not in the public interest. After the period for public comment, the United States and any State taking public comment will file with the Bankruptcy Court any comments received, as well as their responses to the comments. At that time, if appropriate, the United States and the States will seek approval of the Settlement Agreement.

52. If for any reason (i) the Settlement Agreement is withdrawn by the United States or any State taking public comment as provided in Paragraph 51, or (ii) the Settlement Agreement is not approved, or (iii) the Bankruptcy Cases are, in whole or in part, dismissed or converted to cases under Chapter 7 of the Bankruptcy Code before the effective date of the Plan of Reorganization, or (iv) the Court confirms the Plan without the Environmental Custodial Trust Agreement attached hereto as Exhibit B: (a) this Settlement Agreement shall be null and void and the Parties shall not be bound hereunder or under any documents executed in connection herewith; (b) the Parties shall have no liability to one another arising out of or in connection with this Settlement Agreement or under any documents executed in connection herewith; and (c) this Settlement Agreement and any documents prepared in connection herewith shall have no residual or probative effect or value, and it shall be as if they had never been executed.

XX. PLAN OF REORGANIZATION

53. Unless the United States or any State withdraws its support for the Settlement Agreement as provided in Paragraph 51, the Debtors shall not (i) amend the Plan of Reorganization in a manner inconsistent with the terms and provisions of this Settlement Agreement, (ii) take any other action in the Bankruptcy Cases that is inconsistent with the terms and provisions of this Settlement Agreement, or (iii) amend the Plan in a manner inconsistent with (or propose terms for any order confirming the Plan that are inconsistent with) Section 11.8(e) of the Plan as proposed on March 15, 2010. The Debtors shall timely serve each of the Parties to this Agreement with any motion to amend the Plan after its confirmation. The Settling Federal Agencies and the States shall not oppose any term or provision of the
