RE: Streeterville Thorium Monitoring Results – Pavement Adjustment
Permit No.: CDOT1733254
Permit Addresses: 600-679 N Michigan Avenue

Dear Mr. Carlson:

Pursuant to conditions specified in the Right of Way (ROW) forms (attached) issued by the City of Chicago Department of Public Health (CDPH), radiation monitoring is required to be performed at the above referenced site if work will excavate or expose fill soil. AECOM Technical Services, Inc. (AECOM) arrived at the referenced address on October 3rd to provide the required radiation surveillance. A contractor for Peoples Gas Light & Coke Co. planned to adjust a valve box within the street ROW ahead of a City of Chicago street repaving project along Michigan Avenue. Upon arrival, AECOM personnel were informed that excavation was unnecessary due to the valve box being located on the sidewalk and not within the street ROW. Therefore, no thorium monitoring was required since the valve box was not adjusted and no excavation was performed.

A PDF copy of this letter is being forwarded via email to the CDPH and Verneta Simon (USEPA) to fulfill the requirements of the CDPH. Copies of the CDPH form are included as an attachment to this report.

Please contact us with any questions you have regarding this letter.

Regards,

Eric Sulita, P.E.
Environmental Engineer III

Steven C. Kornder, Ph.D.
Senior Project Geochemist

CDPH PERMIT FORMS

DEPARTMENT OF PUBLIC HEALTH
CITY OF CHICAGO

FORM NO. CDPH.ROW.03 (STREETERVILLE Right-of-Way)

Notice is hereby given that the site you have requested a permit for is recorded with the City of Chicago Department of Public Health (CDPH) as potentially having environmental contamination on the site and adjacent right-of way. This environmental contamination could present a threat to human health and safety in connection with work performed at the site, or in the adjacent right-of-way, if proper safeguards are not employed.

A file containing detailed information regarding the aforementioned environmental contamination is available for review at CDPH at 333 S. State St., Room 200, Chicago, Illinois 60604 during normal business hours (8:30AM-4:30PM, Monday through Friday). Contact (312) 745-3152 for an appointment. This file must be reviewed and the remainder of this form completed before the permit can be issued if the ground is exposed or excavated. Please note that for some locations, additional health and safety procedures may be required by law.

Please complete the following:

I have reviewed and understand the documents, maintained by CDPH, regarding environmental contamination of the site and adjacent right-of-way. Further, I will ensure that all work at the subject site and adjacent right-of-way, and any monitoring required including but not limited to radiation monitoring, will be performed in a manner that is protective of human health and the environment and in compliance with all applicable local, state, and federal laws, rules, and regulations, especially those pertaining to worker safety and waste management. I will ensure that the results of any radiation monitoring and/or surveying conducted shall be provided to the CDPH and the United States Environmental Protection Agency within two (2) weeks of their completion. If any elevated levels of radioactive material are detected, I will immediately contact the United States Environmental Protection Agency at (800) 424-8802.
