## **INTRODUCTION**

Section 113(j)(1) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) provides that judicial review of any issues concerning the adequacy of any response action shall be limited to the administrative record which has been compiled for the site at issue.

Section 113(k)(1) of CERCLA, requires that the United States Environmental Protection Agency (Agency) establish administrative records for the selection of CERCLA response actions. The administrative record is the body of documents upon which the Agency based its selection of a response action must be documented thoroughly in the administrative record. The Agency must ensure that the record is a compilation of documents leading up to and reflecting the Agency's response decision.

In accordance with U.S. EPA Headquarters OSWER Directive 9833.3, Section 113(k) of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), as amended in 1986 by the Superfund Amendments and Reauthorization Act (SARA) the U.S. EPA is required to compile and make available to the public Administrative Records containing documents used to support response actions authorized under CERCLA and SARA. The Administrative Records are to be maintained at the relevant U.S. EPA Regional Offices as well as "at or near the facility at issue."

This Administrative Record File Index consists of information upon which the Agency based its decision on selection of response actions. It is a subset of information included in the site files. The records in this Administrative Record File Index have been arranged in chronological order (from the earliest date to the most recent date), based on the date of the corresponding document. Each document contained in the Administrative Record File has been stamped with sequential document numbers, to assist in the location of the document within the Record File.

This Administrative Record File Index has been compiled in accordance with OSWER Directive Number 9833.1a Interim Guidance on Administrative Records for Decisions on Selection of CERCLA Response Actions. This guidance reflects, to the extent practicable revisions being made to the National Contingency Plan (NCP).
