Miami, OK 74355

RE: Compact Diskette on the "Draft Preliminary Site Characterization Summary" (dated September 2005) developed for OU4 of the Tar Creek Superfund Site

Dear Ms. Sizemore:

Enclosed is a compact diskette on the "draft Preliminary Site Characterization Summary" that the U.S. Environmental Protection Agency (EPA) received from the Respondents on September 30, 2005. This draft document is a deliverable described in the Administrative Order on Consent that was signed between EPA and the Respondents on December 9, 2003. This document along with several additional documents may possibly be modified and will be used to determine the best response action for OU4.

As you know the quarterly Memorandum of Understanding team meeting is scheduled October 11, 2005 at 10:30 am, in the Miami Civic Center in Miami, OK. EPA encourages you to attend so that you can learn more about the remaining OU4 activities and schedule.

Should you have any questions regarding the enclosed document, please give me a call at (214) 665-6743. Thank you as always, for your continued participation and interest on this project.

Respectfully,

A handwritten signature in black ink, appearing to read "Utsula R. Lennox".

Utsula R. Lennox
Remedial Project Manager
