Subject  
Fw: Final Draft Tar Creek ROD

This is the near final ROD that is being discussed with our partners with the Tribes and state and other Federal partners. As to timing, we have 10 days for this final review. We need any final comments as soon as possible, but NLT 8 February. Our plan is to have the final ready for reproduction and distribution by 22 February 2008.

I am also sending the documents (minus the redline version) to DOJ and DOI with the same timeline.

Final Draft Tar Creek ROD

Sam,

Attached are the final draft documents incorporating your changes. It is my understanding that you will forward these documents to EPA HQ for their review. I have included a clean copy of the final draft ROD (which includes the Responsiveness Summary) along with a comparison document to the 12/10/07 version that was previously sent to HQ. The updated figures and tables are also attached.
