IRIS = Integrated Risk Information System

NV = no toxicity value

RSL = Oak Ridge National Laboratory Regional Screening Level Table

CalEPA = California Environmental Protection Agency

(1) For IRIS values, date that IRIS was searched

For RSL values, date table was downloaded

For CalEPA, date database was searched.

For nickel, used toxicity value for nickel refinery dust

[4] Weight of evidence from IRIS; slope factor from RSL Table

Weight of Evidence:

A - Human carcinogen

D - Not classifiable as a human carcinogen

B2 - Probable human carcinogen - indicates sufficient evidence in animals and inadequate or no evidence in humans

CalEPA - California Environmental Protection Agency

[4] Weight of evidence from IRIS; slope factor from RSL Table

Weight of Evidence:

A - Human carcinogen

D - Not classifiable as a human carcinogen

B2 - Probable human carcinogen - indicates sufficient evidence in animals and inadequate or no evidence in humans

Weight of Evidence:

A - Human carcinogen

D - Not classifiable as a human carcinogen

B2 - Probable human carcinogen - indicates sufficient evidence in animals and inadequate or no evidence in humans

NV= No toxicity value available

(1) EPA 2004. RAGS Volume 1: Human Health Evaluation Manual (Part E, Supplemental Guidance for Dermal Risk Assessment).

(2) ORAL CSF/ Oral to Dermal Adjustment Factor = Adjusted Dermal CSF

(3) For IRIS values, date that IRIS was searched

For RSL values, date table was downloaded

CalEPA - California Environmental Protection Agency

[4] Weight of evidence from IRIS; slope factor from RSL Table

Weight of Evidence:

A - Human carcinogen

D - Not classifiable as a human carcinogen

B2 - Probable human carcinogen - indicates sufficient evidence in animals and inadequate or no evidence in humans

IRIS = Integrated Risk Information System

NV = no toxicity value

RSL = Oak Ridge National Laboratory Regional Screening Level Table

CalEPA = California Environmental Protection Agency

(1) For IRIS values, date that IRIS was searched

For RSL values, date table was downloaded

For CalEPA, date database was searched.

For nickel, used toxicity value for nickel refinery dust

[4] Weight of evidence from IRIS; slope factor from RSL Table

Weight of Evidence:

A - Human carcinogen

D - Not classifiable as a human carcinogen

B2 - Probable human carcinogen - indicates sufficient evidence in animals and inadequate or no evidence in humans

[4] Weight of evidence from IRIS; slope factor from RSL Table

Weight of Evidence:

A - Human carcinogen

D - Not classifiable as a human carcinogen

B2 - Probable human carcinogen - indicates sufficient evidence in animals and inadequate or no evidence in humans

[4] Weight of evidence from IRIS; slope factor from RSL Table

Weight of Evidence:

A - Human carcinogen

D - Not classifiable as a human carcinogen

B2 - Probable human carcinogen - indicates sufficient evidence in animals and inadequate or no evidence in humans
