**SAN FERNANDO VALLEY SUPERFUND SITE, Area 1
Burbank Operable Unit
Administrative Record**

FACT SHEET

The "administrative record" is the collection of documents which form the basis for an agency's decision, in this case the selection of a response action at a Superfund site. Under Section 113(k) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended by the Superfund Amendments and Reauthorization Act (SARA), EPA is required to establish an administrative record for every Superfund response action and to make a copy of the administrative record available at or near the site.

The administrative record must be reasonably available for public review during normal business hours. It should be treated as a non-circulating reference document, in order to allow the public greater access to the record and also to minimize the risk of loss or damage. Individuals may copy any documents contained in the administrative record, according to the copying procedures at the local repository.

The administrative record will be maintained at the local repository until further notice. Periodically EPA may send supplements and indexes directly to the local repository. These supplements must be placed with the initial administrative record. Questions regarding the maintenance of the administrative record and requests for copies of the microfilm should be directed to:

Elaine Chan
Administrative Record Coordinator
U.S. EPA

INTRODUCTION

SAN FERNANDO VALLEY SUPERFUND SITE BURBANK OPERABLE UNIT

Burbank, California

Administrative Record Index Supplements 1, 2, 3, 4 & 5

This administrative record file for the San Fernando Valley Superfund Site, Burbank Operable Unit consists of 6 sections:

Section 1: Original Administrative Record

- Section 2: Supplement 1
- Section 3: Supplement 2
- Section 4: Supplement 3
- Section 5: Supplement 4
- Section 6: Supplement 5

Section 1 lists documents contained in the original Administrative Record file compiled in June 1989. The original Administrative Record is further divided into 2 sub-sections: 1A & 1B. Section 1A contains documents from the U.S. Environmental Protection Agency files. Section 1B contains documents to/from parties which received U.S. Environmental Protection Agency General Notice letters. Documents in Section 1A are arranged in chronological order by date. Documents in section 1B are arranged alphabetically by company name and chronologically by date within each company. Section 1 consists of documents numbered AR#0001-AR#1505.

Section 2 (supplement 1) consists of documents numbered AR#1506-AR#1555. The documents are arranged in chronological order by date from 9/85 - 5/90. Supplement 1 contains the Proposed Explanation of Significant Differences (ESD) to the Record of Decision (ROD) signed 6/26/89 and supporting documentation other than that contained in the original Administrative Record for the Record of Decision. Documents in Supplement 1 were added to the Administrative Record after the compilation of the original Administrative Record in June 1989.

Section 3 (supplement 2) consists of documents numbered AR#1556-AR#1558. The documents are arranged in chronological order by date from 8/90 - 11/90. This supplement contains the November 21, 1990, Final Explanation of Significant Differences (ESD) to the June 30, 1989 Record of Decision and supporting documentation, other than that contained in the original Administrative Record for the Record of Decision and Administrative Record, Supplement 1 for the ESD. The documents in supplement 2 were added after the compilation of the original Administrative Record in June 1989 and Supplement 1 in July 1990.

Section 4 (supplement 3) consists of documents numbered AR#1559-AR#1562. Documents are arranged in chronological order by date from 8/89 to 6/91. Supplement 3 contains the Final Record of Decision for the San Fernando Valley, Burbank Operable Unit, as well as supporting documentation other than that contained in the original Administrative Record and its preceding supplements 1 and 2.

Section 5 (supplement 4) consists of documents numbered AR#1563-AR#1569. Documents are arranged in chronological order by date from 3/95 to 2/97. Supplement 4 contains the Second Explanation of Significant Differences (ESD) to the 1989 Record of Decision as well as supporting documentation other than that contained in the original Administrative Record and its preceding supplements 1, 2 and 3.

Section 6 (supplement 5) consists of document number AR #1570. Supplement 5 contains the Final report (revision 2) of the Operation and Maintenance Cost Projection for the Burbank Operable Unit.

The guidance documents used in the U.S. Environmental Protection Agency in identifying remedial activities appropriate for use at the Burbank Operable Unit, is contained behind the Guidance Documents tab in the binder. There is a section for guidance documents used in the original Administrative Record and a section for the guidance documents used in supplement 1.
