TO: Gerry White
FROM: Albert Fujitsubo
DATE: Feb. 20, 1996
SUBJECT: 733 HUGHES, FRESNO

On 2/15/96, Sylvia Hardiway, owner of 733 Hughes, spoke to Fujitsubo.

Hardiway wanted to know what was happening on the case. Fujitsubo stated samples were taken and the results should start coming in the week of February 19, 1996. Hardiway asked what is being done to get Mr. Goorabian to clean up the site. Fujitsubo, stated Jose Lara is investigating Mr. Goorabian's financial status and background.

Hardiway wanted to know why Cal/EPA could not simply get Mr. Goorabian to clean up everything at the site. Fujitsubo stated we have to establish that there is hazardous waste at the site and we have to know Mr. Goorabian's financial status before we decide what to do.

Hardiway wanted to know what else could be done to have Mr. Goorabian clean up the site because the site is causing her financial hardship. Fujitsubo stated we have discussed calling in an EPA-TAT unit to stabilize the site. The decision on what to do will be made when then sample results are in and Mr. Lara concludes his preliminary investigation.

Hardiway then left a voice mail message for Lynn Johnson stating "I want Jose Lara's bosses phone number" she also discussed our phone conversation yesterday. Since Lynn Johnson didn't talk with Hardiway. I presumed she was referencing her talk with Fujitsubo.
